

Preventive Medication Program

Diabetes Supplies

Coverage as of July 1, 2024

Your plan's Preventive Medication Program includes diabetes-related supplies.

About this list

This is a list of the most commonly prescribed diabetes-related supplies that are part of your plan's preventive program as of July 1, 2024.

Here's some helpful information about this list:

- Products are **listed alphabetically**.
- **Generic products are listed in all lowercase letters** and brand-name products are listed in all capital letters. Most brand-name products that have a generic equivalent are no longer part of the preventive medication program.
- This drug list **doesn't include** preventive medications that are covered at 100%, or no cost-share (\$0), to you under the Patient Protection and Affordable Care Act (PPACA)'s preventive services coverage requirement.
- **This drug list is updated often, so it isn't a full list of diabetes-related supplies.** Also, your plan's preventive medication program may not include all of these products.

Log in to the **myCigna® App**¹ or **myCigna.com**[®], or check your plan materials, to see all of the diabetes-related supplies included in your plan's preventive medication program.

Your cost-share for preventive products

Not all plans offer the same cost-share for their preventive medication program. For example, some plans may require you to pay a copay, coinsurance and/or deductible for diabetes-related supplies; other plans may not.

Log in to the **myCigna App** or **myCigna.com** and use the Price a Medication tool to see how much your diabetes-related supplies cost.²

Go generic and save

Ask your doctor if a preventive generic product may be right for you. Generics work in the same way and provide the same clinical benefit as their brand-name versions, but often cost much less – in some cases, up to 85% less.³

Preventive Medication Program

Some plans may not include all of these diabetes-related supplies in their preventive medication program.

Log in to the **myCigna App** or **myCigna.com** or check your plan materials to see which products your plan includes in the program and how much they cost.

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
