

2010 CIGNA Prescription Drug List

Georgia State Health Benefit Plan (SHBP)

YOUR THREE-TIER PRESCRIPTION DRUG PLAN

A three-tier prescription drug plan divides medications into three categories or tiers:

Generic (first tier) drugs: Generic drugs have the same active ingredients, safety, dosage, quality and strength as their brand drug counterparts. They are sold under the chemical or scientific name for the drug. These medications are typically covered at the generic copayment or coinsurance level under a three-tier plan and typically cost less than brand drugs.

Preferred Brand (second tier) drugs: Preferred Brand drugs are those which generally have no generic equivalent and are either more effective than other drugs in the same class or are equally effective but less costly than the other drugs. These medications are typically covered at the Preferred Brand copayment or coinsurance level under the plan.

Non-Preferred Brand (third tier) drugs: Non-Preferred Brand drugs are those which generally have generic equivalents and/or have one or more Preferred Brand options within the same drug class. These medications are typically covered at the highest copayment or coinsurance.

UNDERSTANDING THE CIGNA PRESCRIPTION DRUG LIST

Every medication available on CIGNA's prescription drug list has been approved by the U.S. Food and Drug Administration (FDA). This list represents the most commonly prescribed medications.

If you don't see a specific drug listed in this document, a complete list of medications and their coverage categories can be found at www.CIGNA.com by clicking on "Drug Lists" under "Resources for Members."

For details on which medications are specifically covered under your plan, please visit myCIGNA.com or refer to your plan enrollment materials.

Symbol Key

SYMBOL WHAT IT MEANS...

(PA): Prior Authorization may be required. Certain prescription drugs require an authorization for coverage in accordance with appropriate treatment regimens. Please refer to your benefit plan or contact Member Services for details regarding Prior Authorizations.

(QL): Quantity Limit may apply. You may only obtain coverage for a limited amount of this drug.

(AGE): Age Requirement may apply. You may be required to be in a pre-specified age group in order to obtain coverage for this drug.

If You Have Questions
