VO:

Life moves quickly. And no matter how careful you are, accidents sometimes happen. Some are small. But others might impact how you live your life – and how you pay your bills. And while Cigna Healthcare can't protect you from unexpected accidents, we do offer coverage that can help you regain control.

Cigna Healthcare Accidental Injury Insurance pays you a lump sum benefit if you have a covered accident-related injury. That means you get a cash payment to help you cover the costs that may need to come out of your own pocket. And because everyone deals with recovering from an accident differently, what you do with the money is up to you.

**Not all accidents are covered by this insurance. Exclusions and limitations may apply. Refer to your plan Benefit Summary for more information about the coverage under your specific accidental injury plan.*

For example, you can use the money to pay for out-of-pocket expenses such as emergency room visits or x-rays. Hospital fees or physical therapy. Even child care or groceries. What's more, there are no copays, deductibles or coinsurance requirements.

Benefits from any additional coverage you may have, such as medical, critical illness or hospital care insurance, won't be affected if you receive a payment. And, your monthly premium payment can be deducted right from your paycheck, just like with your medical plan.

Filing a claim is easy with Cigna Simple File. Depending on your other Cigna Healthcare benefits, Simple File automatically compares claims, reminds you to submit additional claims or submits a claim for you.

Add legal lines at F023 F024 frames:

**The Simple File process is based on a one-time assessment of the initial claim documentation for the primary claim. Any subsequent events would not be identified and the customer will need to submit a claim for any supplemental health benefits.*
