### View your drug list online

This document was last updated on 03/01/2024.\* Go online to see the most up-to-date list of medications your plan covers.

- **myCigna® App<sup>1</sup> or myCigna.com®.** Click on the Prescriptions tab and select Price a Medication from the dropdown menu. Then type in your medication name.
- **Cigna.com/PDL.** Scroll down until you see a pdf of the **Cigna Performance 4-Tier Prescription Drug List (all specialty medications covered on Tier 4).**

### Questions?

- **myCigna.com:** Click to Chat - Monday-Friday, 9:00 am-8:00 pm EST.
- **By phone:** Call the toll-free number on your Cigna Healthcare<sup>SM</sup> ID card. We're here 24/7/365.

\* Drug list created: originally created 01/01/2004

Last updated: 03/01/2024, for changes starting 07/01/2024

Next planned update: 11/01/2024, for changes starting 01/01/2025

## About this drug list

This is a list of the most commonly prescribed medications covered on the Cigna Healthcare Performance 4-Tier Prescription Drug List as of July 1, 2024. Medications are listed by the condition they treat, then listed alphabetically within tiers (or cost-share levels).

The drug list is updated often so it isn't a full list of the medications your plan covers. Also, your specific plan may not cover all of these medications. Log in to the **myCigna** App or **myCigna.com**, or check your plan materials, to see all of the medications your plan covers.

## How to read this drug list

Use the chart below to help you read this drug list. This chart is just an example. It may not show how these medications are actually covered on this drug list.

TIER 1 \$	TIER 2 \$\$	TIER 3 \$\$\$
<b>HORMONAL AGENTS</b>		
AMABELZ budesonide dr budesonide ec budesonide er (PA, QL) cabergoline (QL) DECADRON desmopressin DEXABLISS dexamethasone (PA) dexamethasone intensol DOTTI (QL) estradiol (once weekly) estradiol 10mcg vaginal insert (QL) estradiol (twice weekly) (QL) estradiol-norethindrone acetate EUTHYROX LEVO-T LEVOXYL liothyronine LYLLANA (QL) medroxyprog- esterone methyl-prednisolone millipred MIMVEY norethindrone	ANDRODERM (PA, QL) COMBIPATCH DUAVEE ESTRING (QL) ESTROGEL MEDROL 2 MG TABLET MYFEMBREE (PA,QL) ORIAHNN (PA, QL) ORLISSA (PA, QL) PREMARIN TABLET, VAGINAL CREAM APPLICATOR PREMPHASE PREMPRO	ACTIVELLA ALORA (QL) ANDROGEL (PA, QL) ANGELIQ ARMOUR THYROID (PA) AYGESTIN BUJUVA CLIMARA (PA) CLIMARA PRO (PA) CRINONE 4% CYTOMEL DDAVP (PA) DEPO-TESTOSTERONE DIVIGEL (PA) ELESTRIN (PA) ESTRACE (PA) EVAMIST FEMRING (PA) FORTESTA (PA, QL) HEMADY IMVEXXY (PA, QL) INTRAROSA (QL) JATENZO (PA, QL) levothyroxine tablets MEDROL 8MG, 16MG, 32MG TABLET MEDROL 4 MG DOSEPAK MENOSTAR (QL)

Tier (cost-share level) gives you an idea of how much you may pay for a medication

Medications are grouped by the condition they treat; Specialty medications are covered on Tier 4 (pages 16-19)

Medications are listed in alphabetical order within each column

Medications that have extra coverage requirements have an abbreviation next to them

Generic medications are in all lowercase letters

Brand-name medications are in all capital letters

This chart is just a sample. It may not show how these medications are actually covered on the Cigna Healthcare Performance 4-Tier Prescription Drug List.

## Tiers

Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the higher the price you'll pay to fill the prescription.

· <b>Tier 1 – Typically Generics</b>	(Lowest-cost medication)	\$
· <b>Tier 2 – Typically Preferred Brands</b>	(Medium-cost medication)	\$\$
· <b>Tier 3 – Typically Non-Preferred Brands</b>	(Higher-cost medication)	\$\$\$
· <b>Tier 4 – Specialty Medications</b>	(Highest-cost medication)	\$\$\$\$

## Letters (acronyms) next to medication names

Certain medications may need approval from Cigna Healthcare before they can be covered.\* This extra step helps make sure you're getting the right coverage for the right medication. In this drug list, medications that have extra coverage requirements or limits have **letters (acronyms) in parenthesis** next to them. Here's what they mean.

<b>(PA)</b>	<b>Prior Authorization</b> – This medication needs approval from Cigna Healthcare before your plan will cover it. Your doctor's office will have to send us information to review to make sure the medication meets coverage requirements.
<b>(QL)</b>	<b>Quantity Limit</b> – Your plan will only cover a certain amount of this medication at one time. If your doctor wants you to fill more than what's allowed, your doctor's office can ask Cigna Healthcare to approve more.
<b>(ST)</b>	<b>Step Therapy</b> – Your plan doesn't cover this high-cost medication until you try at least one lower-cost option first (typically a generic or preferred brand) and it didn't work for you. If your doctor feels a different medication isn't right for you, your doctor's office can ask Cigna Healthcare to approve coverage of this medication.
<b>(AGE)</b>	<b>Age Requirement</b> – Your plan will only cover this medication if you're a certain age or within a certain age range. If you're not within the allowed age range and your doctor wants you to take this medication, your doctor's office can ask Cigna Healthcare to approve coverage.

\* These coverage requirements may not apply to your specific plan. Log in to the myCigna App or myCigna.com, or check your plan materials, to find out if your plan includes prior authorization, quantity limits, Step Therapy and/or age requirements.

## Brand-name medications are in all capital letters

In this drug list, generic medications are listed in all lowercase letters and brand-name medications are listed in all CAPITAL letters.

## Specialty medications are covered on Tier 4

Specialty medications are used to treat complex medical conditions. They're typically injected or infused and may need special handling (like refrigeration). Some plans may limit coverage to a 30-day supply and/or require you to use a preferred specialty pharmacy to receive coverage. In this drug list, **all specialty medications are covered on Tier 4** (see pages I6–I9). Injectable specialty medications are marked with an asterisk (\*) and oral specialty medications are marked with a double asterisk (\*\*).

## No cost-share preventive medications have a plus sign (+) next to them

Health care reform under the Patient Protection and Affordable Care Act (PPACA) requires plans to cover certain preventive medications and products at 100%, or no cost-share (\$0), to you. In this drug list, these medications have a plus sign (+) next to them.

## Some plans may cover certain non-covered medications

Plans can choose to offer coverage of certain medications, products and/or drug classes that aren't typically covered. In this drug list, these medications/products have a caret (^) next to them. Log in to the **myCigna** App or **myCigna.com** to see if your plan covers them.

## How to find your medication

First, look for your condition in the alphabetical list below. Then, go to that page to see the covered medications available to treat the condition.

## Frequently Asked Questions (FAQs)

Understanding your prescription medication coverage can be confusing. Here are answers to some commonly asked questions.

### **Q. Why do you make changes to the drug list?**

**A.** We regularly review and update your plan's drug list to make sure you're getting coverage for low-cost, safe, clinically effective medications. We make changes for many reasons – like when new medications become available or are no longer available, or when medication prices change. These changes may include:

- **Moving a medication to a lower cost tier.**  
This can happen at any time during the year.
- **Moving a brand medication to a higher cost tier when a generic becomes available.**  
This can happen at any time during the year.
- **Moving a medication to a higher cost tier and/or no longer covering a medication.**  
This typically happens twice a year on January 1<sup>st</sup> and July 1<sup>st</sup>.
- **Adding extra coverage requirements to a medication.**

When we make a change that affects the coverage of a medication you're taking, we let you know before it happens. This way, you have time to talk with your doctor about your options. Only you and your doctor can decide what's best for your treatment.

### **Q. Why doesn't my plan cover certain medications?**

**A.** To help lower your overall health care costs, your plan doesn't cover certain high-cost brand-name medications that have lower-cost alternatives. That's because these lower-cost options work the same as, or similar to, the non-covered medication. If you're taking a medication that isn't covered and your doctor feels a different medication isn't right for you, he or she can ask Cigna Healthcare to consider approving your medication through the coverage review process.

There are also certain medications and products that can't be covered by your plan for any reason because they're considered to be a "plan or benefit exclusion." This means the medication or product isn't on your plan's drug list, and there's no option to ask Cigna Healthcare to consider approving it through

the coverage review process. For example, your plan doesn't cover, or "excludes," medications that aren't approved by the U.S. Food and Drug Administration (FDA).

### **Q. How do you decide which medications to cover?**

**A.** The Cigna Healthcare Prescription Drug List is developed with the help of the Cigna Healthcare Pharmacy and Therapeutics (P&T) Committee, which is a group of practicing doctors and pharmacists, most of whom work outside of Cigna Healthcare. The group meets regularly to review medical evidence and information provided by federal agencies, drug manufacturers, medical professional associations, national organizations and peer-reviewed journals about the safety and effectiveness of medications that are newly approved by the FDA and medications already on the market. The Cigna Healthcare Health Plan Commercial Value Assessment Committee (HVAC) then looks at the results of the P&T Committee's clinical review, as well as the medication's overall value and other factors before adding it to, or removing it from, the drug list.

### **Q. Why do certain medications need approval before my plan will cover them?**

**A.** The review process helps to make sure you're receiving coverage for the right medication, at the right cost, in the right amount and for the right situation.

### **Q. How do I know if I'm taking a medication that needs approval?**

**A.** Log in to the **myCigna** App or **myCigna.com**, or check your plan materials, to learn more about how your plan covers your medications. If your medication has a **(PA)** or **(ST)** next to it, your medication needs approval before your plan will cover it. If it has a **(QL)** next to it, you may need approval depending on the amount you're filling. If it has **(AGE)** next to it, you may need approval depending on the covered age range for the medication.

## Frequently Asked Questions (FAQs) (cont.)

### Q. What types of medications typically need approval?

A. Medications that:

- May be unsafe when combined with other medications
- Have lower-cost, equally effective alternatives available
- Should only be used for certain health conditions
- Are often misused or abused

### Q. What types of medications typically have quantity limits?

A. Medications that are often:

- Taken in amounts larger than (or for longer than) may be appropriate
- Misused or abused

### Q. What types of medications require Step Therapy?

A. High-cost medications that are used to treat many conditions, such as:

- ADD/ADHD
- Allergies
- Bladder problems
- Breathing problems
- Depression
- High blood pressure
- High cholesterol
- Osteoporosis
- Pain
- Skin conditions
- Sleep disorders

### Q. Why does my medication have an age requirement?

A. The FDA considers certain medication to only be clinically appropriate for people of a certain age or within a certain age range.

### Q. How do I get approval (prior authorization) for my medication?

A. Ask your doctor's office to contact Cigna Healthcare to start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can download a request form from the Cigna Healthcare provider portal at [cignaforhcp.com](http://cignaforhcp.com).

Cigna Healthcare will review information your doctor sends us to make sure your medication meets coverage requirements. We'll send you and your doctor a letter with the decision and next steps. It can take 1-5 business days to hear from us. You can always check with your doctor's office to find out if a decision's been made. You can also log in to the **myCigna App** or **myCigna.com** to check the status of your approval.

If your medication isn't approved, your doctor can send us more information to review, using the same process as before. We're happy to review the request again. Depending on what your doctor sends this time, we may be able to approve coverage. Or, you and your doctor can appeal the decision by sending Cigna Healthcare a written request explaining why the medication should be covered.

### Q. What happens if I try to fill a prescription that needs approval but I don't get approval ahead of time?

A. When your pharmacist tries to fill your prescription, he or she will see that the medication needs preapproval from Cigna Healthcare. Because you didn't get approval ahead of time, your plan won't cover the cost of your medication. You should ask your doctor to contact Cigna Healthcare to start the coverage review process. Or, you can choose to pay the medication's full cost out-of-pocket directly to the pharmacy (the cost can't be applied to your annual deductible or out-of-pocket maximum).

### Q. What happens if I try to fill a prescription that has a quantity limit?

A. Your pharmacist will only fill the amount your plan covers. If you want to fill more than what's allowed, your doctor's office will have to contact Cigna Healthcare and ask us to approve a larger amount.

### Q. Are all of the medications on this drug list approved by the FDA?

A. Yes.

## Frequently Asked Questions (FAQs) (cont.)

### **Q. Does my plan cover medications that the FDA recently approved?**

**A.** We review all recently approved medications and products to see if they should be covered – and if so, at what cost-share (tier). It can take up to six months from the date the FDA approved them to make a decision. These include, but are not limited to, medications, medical supplies and/or devices covered under standard pharmacy benefits. If your doctor wants you to use a recently approved medication, he or she can ask Cigna Healthcare to consider approving it through the coverage review process.

### **Q. Which medications are covered under the health care reform law?**

**A.** The Patient Protection and Affordable Care Act (PPACA), commonly referred to as “health care reform,” was signed into law on March 23, 2010. Under this law, certain preventive medications (including some over-the-counter products) may be available to you at no cost-share (\$0), depending on your plan. Log in to the **myCigna** App or **myCigna.com**, or check your plan materials, to learn more about how your plan covers preventive medications. You can also view the PPACA No Cost-Share Preventive Medications drug list at **Cigna.com/PDL**. For more information about health care reform, go to **www.informedonreform.com** or **CignaHealthcare.com**.

### **Q. What are preventive medications?**

**A.** Preventive medications are used to keep certain conditions from developing or from coming back. These conditions include, but are not limited to asthma, depression, diabetes, heart attack, high blood pressure, high cholesterol, osteoporosis, prenatal nutrient deficiency and stroke.

### **Q. How can I find out how much I'll pay for a specific medication?**

**A.** When you and your doctor are considering the right medication for your treatment, knowing how much it costs, what lower-cost alternatives are available and which pharmacies offer the best prices can help you avoid surprises. Log in to the **myCigna** App or **myCigna.com** and use the Price a Medication tool to see how much your medication costs before

you get to the pharmacy counter – or, even before you leave your doctor's office.<sup>3</sup>

### **Q. What's a cost-share?**

**A.** It's the amount you pay out of your own pocket for a covered prescription and/or an eligible health care or related service. For some plans, the cost-share is a copay; for other plans, it's a coinsurance.

### **Q. How can I save money on my prescription medications?**

**A.** Consider using a medication that's covered on a lower tier (such as a generic or preferred brand medication) or by filling a 90-day supply (if your plan allows). You should talk with your doctor to see if one of these options may work for you.

### **Q. What's a generic medication?**

**A.** A generic medication is the same as its brand-name version in safety, effectiveness, quality, strength and dosage, as well as in the way it's taken and used.<sup>4</sup>

Brand-name medications are protected by patents. Patents keep other manufacturers from selling generic versions of the brand-name medication. Once a patent ends, other companies can make and sell a generic version of the brand-name medication. Generics are typically sold under their chemical or scientific name, instead of the manufacturer's patented brand name.

### **Q. Do generics work the same as brand-name medications?**

**A.** Yes. A generic medication works in the same way and provides the same clinical benefit as its brand-name version.

### **Q. What are the differences between generic and brand-name medications?**

**A.** The medications may look different. For example, generics may have a different shape, size or color than their brand-name versions. They may also have a different flavor, have different preservatives, come in different packaging and/or with different labeling and may expire at different times. Generics may look different than their brand-name versions, but they're just as safe and effective.

## Frequently Asked Questions (FAQs) (cont.)

Generics typically cost much less than brand-name medications – in some cases, up to 85% less. Just because generics cost less, it doesn't mean they're lower quality.

### **Q. My pharmacy isn't in my plan's network. Can I continue to fill my prescriptions there?**

**A.** To get the most from your plan coverage, you should use an in-network pharmacy. If your plan offers out-of-network coverage, you'll pay your out-of-network cost-share to fill a prescription there.

### **Q. Can I fill my prescriptions by mail?**

**A.** Yes, as long as your plan offers home delivery.<sup>5</sup>

### **Express Scripts® Pharmacy for maintenance medications**

Express Scripts® Pharmacy is a convenient option when you're taking a medication on a regular basis to treat an ongoing health condition. It's simple and safe, and saves you trips to the pharmacy. To learn more, go to **Cigna.com/homedelivery**.

- Easily order, manage, track and pay for your medications on your phone or online
- Standard shipping at no extra cost<sup>6</sup>
- Automatic refills or refill reminders
- Fill up to a 90-day supply at one time<sup>7</sup>
- Helpful pharmacists available 24/7
- Flexible payment options

### **Here are three easy ways to get started.**

- 1. Log in to the myCigna App or myCigna.com to move your prescription electronically.** Click on the Prescriptions tab and select My Medications from the dropdown menu. Then click the button next to your medication name to move your prescription(s). Or,
- 2. Call your doctor's office.** Ask them to send a 90-day prescription (with refills) electronically to Express Scripts Home Delivery. Or,

- 3. Call Express Scripts® Pharmacy at 800.835.3784.** They'll contact your doctor's office to help transfer your prescription. Have your Cigna Healthcare ID card, doctor's contact information and medication name(s) ready when you call.

### **Accredo® for specialty medications**

If you're taking a specialty medication to treat a complex medical condition, Accredo's team of specialty trained pharmacists and nurses can help. They'll fill and ship your specialty medication to your home (or location of your choice).<sup>8</sup> They'll also provide you with the personalized care and support you need to manage your therapy – at no extra cost.

- 24/7 access to specialty-trained pharmacists and nurses
- Personalized care services such as training on how to administer your medication
- Help you find ways to pay for your medications
- Fast shipping at no extra cost
- Easy refills and free reminders
- Easily manage your medications online and track your orders

To get started using Accredo, call **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST and Saturdays, 7:00 am–4:00 pm CST. To learn more about Accredo, go to **Cigna.com/specialty**.

### **Q. Where can I find more information about my pharmacy benefits?**

**A.** You can use the online tools and resources on the **myCigna App** or **myCigna.com** to help you better understand your pharmacy coverage. You can find out how much your medication costs, see which medications your plan covers, find an in-network pharmacy, ask a pharmacist a question, see your pharmacy claims and coverage details and more. You can also manage your Express Scripts® Pharmacy orders.

## Exclusions and limitations for coverage

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. If your plan provides coverage for certain preventive prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, the prescription may not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans generally do not provide coverage for the following under the pharmacy benefit, except as required by state or federal law, or by the terms of your specific plan:<sup>9</sup>

- Over-the-counter (OTC) medicines (those that do not require a prescription) except insulin unless state or federal law requires coverage of such medicines.
  - Prescription medications or supplies for which there is a prescription or OTC therapeutic equivalent or therapeutic alternative.
  - Doctor-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the Plan's prescription drug list or approved by Cigna Healthcare.
  - Implantable contraceptive devices covered under the Plan's medical benefit.
  - Medications that are not medically necessary.
  - Experimental or investigational medications, including U.S. Food and Drug Administration (FDA)-approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication.
  - Medications that are not approved by the FDA.
  - Prescription and non-prescription devices, supplies, and appliances other than those supplies specifically listed as covered.
  - Medications used for fertility,<sup>10</sup> sexual dysfunction, cosmetic purposes, weight loss, smoking cessation,<sup>10</sup> or athletic enhancement.
  - Prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such products.
  - Immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis.
  - Replacement of prescription medications and related supplies due to loss or theft.
  - Medications which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals.
  - Prescriptions more than one year from the date of issue.
  - Coverage for prescription medication products for the amount dispensed (days' supply) which is more than the applicable supply limit, or is less than any applicable supply minimum set forth in The Schedule, or which is more than the quantity limit(s) or dosage limit(s) set by the P&T Committee.
  - More than one prescription order or refill for a given prescription supply period for the same prescription medication product prescribed by one or more doctors and dispensed by one or more pharmacies.
  - Prescription medication products dispensed outside the jurisdiction of the United States, except as required for emergency or urgent care treatment.
- In addition to the plan's standard pharmacy exclusions, certain new FDA-approved medication products (including, but not limited to, medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless approved by Cigna Healthcare as medically necessary.

Cigna Healthcare reserves the right to make changes to the drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the U.S. Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

1. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
2. **For insured plans that must follow Delaware's state insurance laws:** Brand-name antidepressants, smoking cessation, attention deficit hyperactivity disorder (ADHD) and anti-psychotic medications that don't have a generic equivalent available will be covered as Tier 2 (preferred brand). This is true even if the medication is listed as Tier 3 (non-preferred brand) on your plan's drug list. To find out how your specific plans covers these medications, log in to the myCigna App or myCigna.com, or call Customer Service using the number on your ID card.
3. Prices shown on myCigna are not guaranteed and coverage is subject to your plan terms and conditions. Visit myCigna for more information.
4. U.S. Food and Drug Administration (FDA) website, "Generic Drugs: Questions and Answers." Last updated 03/16/21. [fda.gov/drugs/questions-answers/generic-drugs-questions-answers](https://www.fda.gov/drugs/questions-answers/generic-drugs-questions-answers).
5. Not all plans offer Express Scripts® Pharmacy and Accredo as covered pharmacy options. Log in to the myCigna App or myCigna.com, or check your plan materials, to learn more about the pharmacies in your plan's network. Cigna Healthcare maintains an ownership interest in Express Scripts® Pharmacy's home delivery services and Accredo's specialty pharmacy services. However, you have the right to fill prescriptions at any pharmacy in your plan's network. You won't be penalized regardless of where you fill your prescriptions.
6. Standard shipping costs are included as part of your prescription plan.
7. Some medications aren't available in a 90-day supply and may only be packaged in lesser amounts. For example, three packages of oral contraceptives equal an 84-day supply. Even though it's not a "90-day supply," it's still considered a 90-day prescription.
8. As allowable by law. For medications administered by a health care provider, Accredo will ship the medication directly to your doctor's office.
9. Costs and complete details of the plan's prescription drug coverage are set forth in the plan documents. If there are any differences between the information provided here and the plan documents, the information in the plan documents takes complete precedence.
10. **For plans that must follow state insurance laws, such as Delaware:** Your plan may provide coverage for infertility medications and smoking cessation medications even if this drug list states that your plan may not cover them. To find out if your specific plan covers these medications, log in to the myCigna App or myCigna.com, or check your plan materials.

**Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.**

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna Healthcare representative.

All Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.

# DISCRIMINATION IS AGAINST THE LAW

## Medical coverage

Cigna complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Cigna does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Cigna:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact customer service at the toll-free number shown on your ID card, and ask a Customer Service Associate for assistance.

If you believe that Cigna has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance by sending an email to [ACAGrievance@Cigna.com](mailto:ACAGrievance@Cigna.com) or by writing to the following address:

Cigna  
Nondiscrimination Complaint Coordinator  
PO Box 188016  
Chattanooga, TN 37422

If you need assistance filing a written grievance, please call the number on the back of your ID card or send an email to [ACAGrievance@Cigna.com](mailto:ACAGrievance@Cigna.com). You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services  
200 Independence Avenue, SW  
Room 509F, HHH Building  
Washington, DC 20201  
1.800.368.1019, 800.537.7697 (TDD)  
Complaint forms are available at  
<http://www.hhs.gov/ocr/office/file/index.html>.

All Cigna products and services are provided exclusively by or through operating subsidiaries of Cigna Corporation, including Cigna Health and Life Insurance Company, Connecticut General Life Insurance Company, Evernorth Care Solutions, Inc., Evernorth Behavioral Health, Inc., Cigna Health Management, Inc., and HMO or service company subsidiaries of Cigna Health Corporation and Cigna Dental Health, Inc. The Cigna name, logos, and other Cigna marks are owned by Cigna Intellectual Property, Inc. ATTENTION: If you speak languages other than English, language assistance services, free of charge are available to you. For current Cigna customers, call the number on the back of your ID card. Otherwise, call 1.800.244.6224 (TTY: Dial 711). ATENCIÓN: Si usted habla un idioma que no sea inglés, tiene a su disposición servicios gratuitos de asistencia lingüística. Si es un cliente actual de Cigna, llame al número que figura en el reverso de su tarjeta de identificación. Si no lo es, llame al 1.800.244.6224 (los usuarios de TTY deben llamar al 711).

## Proficiency of Language Assistance Services

**English** – ATTENTION: Language assistance services, free of charge, are available to you. For current Cigna customers, call the number on the back of your ID card. Otherwise, call 1.800.244.6224 (TTY: Dial 711).
