

Cigna's Service to the Global Community

- 1** For a week in March, forty-five Cigna employees partnered with Habitat for Humanity Indonesia to build houses for low-income families.

- 2** Cigna employees came together from around the world representing China, Hong Kong, Taiwan, Korea, Thailand, Indonesia, New Zealand, UK and US.

- 3** Gobleg Village, Indonesia was picked as the location for the Cigna project because of a critical need there for shelter, sanitation and water systems.

- 4** The Cigna team helped build 6 new houses.

- 5** A \$50,000 donation by the Cigna Foundation made the project possible.
