How it works:

The Cigna network in Missouri is the LocalPlus® Network, which provides access to BJC HealthCare and select other providers in the local area.

- LocalPlus is a smaller network of health care professionals chosen with quality in mind.
- When you are outside of your local area (but in an area serviced by LocalPlus), you can still save by seeing an in-network doctor that's included in the Cigna LocalPlus network.
- Don't have access to a provider in the LocalPlus network? Access Cigna's broader Open Access Plus network and still receive in-network savings.⁴
