

CIGNA'S COVID-19 VACCINE COVERAGE AND REIMBURSEMENT

Guidelines at a glance

March 2021

Cigna applauds the release of safe and effective COVID-19 vaccines and the urgent actions taken by the pharmaceutical industry and regulators. Given the FDA's rigorous review and approval processes, we trust the safety and efficacy of the vaccines and are committed to engaging our customers to promote the wide use of the vaccines.

Our commitment

For all FDA emergency use authorized (EUA) COVID-19 vaccines, we are committed to:

- ▶ **No out-of-pocket costs** for Cigna commercial and Medicare customers
- ▶ **Reasonable provider reimbursement** consistent with established national CMS rates for vaccine administration billed under the medical benefit
- ▶ **Engaging customers and providers** on vaccine availability, distribution and coverage information

Additional coverage and reimbursement guidelines

- ▶ As the government is providing the initial vaccine doses free of charge, Cigna will not reimburse providers for the cost of the vaccine itself. Providers can, however, bill the vaccine code with a nominal charge (e.g., \$.01), but it is not required.
- ▶ Providers that receive the COVID-19 vaccine free of charge from the federal government are prohibited from seeking reimbursement from consumers for vaccine administration costs – whether as cost sharing or balance billing.
- ▶ If a patient does not have insurance, providers may file a claim with the [provider relief fund](#), but they may not charge patients directly for any vaccine administration costs.
- ▶ An E&M service and vaccine administration code should only be billed when a significant and separately identifiable E&M visit is performed at the same time as the administration of the vaccine.
- ▶ Precertification (i.e., prior authorization) is not required for COVID-19 vaccine administration.
- ▶ Providers should bill Cigna for the administration of the vaccine for patients with a commercial Cigna-administered benefit plan, and bill Original Medicare for patients enrolled in Medicare Advantage.

Together, all the way.®
