

CHOOSE HOW TO USE YOUR HEALTH SAVINGS ACCOUNT

Understanding the benefits of long-term investing.

With a Cigna Choice Fund® Health Savings Account (HSA), investing for the future is an important benefit available to you. Your HSA¹ offers you the option to invest your money for potential long-term savings and tax advantages when you do not spend it on current eligible health expenses. It's an easy way to start - or add to - your investment portfolio.

We are here to help you learn about the power of your HSA so you can make the right choices for you and your family. Let's begin with a refresher on how to use your HSA and visit some of the key decision points.

A Typical Health Savings Account Experience

Contribute to your HSA cash account

Visit your doctor

Receive a bill

You have two options to pay for your care

1

Use your HSA contributions

Pay your IRS qualified health care expense using the funds in your HSA cash account

OR

2

Save your HSA contributions for the future

Pay your IRS qualified health care expense using your personal funds, with the option to reimburse yourself later

Open an HSA investment account.*
Save your funds for future expenses or use as additional income during retirement**

* You must first reach the minimum amount to open an HSA investment account which is usually \$2,000.

** After age 65, funds can be withdrawn for any purpose without penalty but may be subject to income tax if not used for qualified health care expenses.

Key information about investing in your HSA

Having an HSA investment account helps you save your contributions to build and grow additional income for your future.

- › Like a 401k or IRA retirement account, your HSA investment earnings grow without being taxed. If you use them to pay for eligible health care expenses, they are also tax-free.²
- › Unlike a 401k or IRA, you can move your HSA investment funds back into your HSA cash account at any time to pay for your current qualified health care expenses.

Anyone can become an HSA investor. Once you have accumulated the minimum balance required³, as specified by your employer, you are eligible to open an HSA investment account.

Why should I invest?

An HSA investment account is a great way to prepare and save for your future. You can also use this account to save for unexpected health care costs if needed. And there is no monthly fee to open an account. The sooner you get started the more you can save.

You can take advantage of many financial benefits that come along with an HSA investment account, including:

- › Potential long-term savings – much like your 401k or IRA
- › Tax exempt contributions – all contributions and gains are exempt from taxes while invested*
- › Tax exempt withdrawals – as long as the money is used for eligible health care expenses or to reimburse yourself for such expenses when you've paid using your personal funds

How do I open an investment account?

It's easy and anyone with a Cigna Choice Fund HSA can invest. Here's what you do.

- › First you must have saved the minimum amount in your HSA cash account to open an investment account (usually \$2,000)³
- › Log on to myCigna.com
- › Click on "Health Savings Account" under the "Review My Coverage" tab
- › Next, click on the Health Savings Account link
- › Then, click on the Investment Options tab
- › Follow the steps to enroll in the investment account, which will prompt you to make an initial transfer
- › You can set up automatic transfers from your HSA cash account to your investment account
