2. Cigna provides access to dedicated virtual care through a national telehealth provider, MDLIVE located on myCigna, as part of your health plan. This service is separate from your health plan's network and may not be available in all areas. **\$0 virtual care benefit for minor acute medical care not available for all plans. All rewards may be considered taxable income. Contact your personal tax advisor for details. 5. **Healthy Rewards programs are NOT insurance.** Rather, these programs give a discount on the cost of certain goods and services. The customer must pay the entire discounted cost. Some Healthy Rewards programs are not available in all states, and programs may be discontinued at any time. Participating providers are solely responsible for their goods and services.

Three things to think about before making your choice.

1. Cost

Choose a plan that meets your budget. Each plan has a variety of costs. These include:

- **Premium.** This is the payment you make each month to keep your coverage.
- **Deductible.** This is the set amount you pay out of pocket for covered medical services before your insurance starts sharing the cost.
- **Coinsurance.** Once you've met your annual deductible, you pay for a percentage of covered medical services and your health plan pays the rest.
- **Copays.** This is the fixed amount you pay for doctor visits, prescriptions or other medical services.

Plans are available in three metal levels.

Each is available on the Exchange and pays different amounts of the total cost of an average person's care. The higher the metal level, the more expenses your plan covers. To learn more, go to the "Summary of Benefits" on Healthcare.gov.

2. Financial assistance

Three out of four Cigna customers receive federal financial assistance when buying a plan on the Exchange.⁶

- **Premium tax credits** can reduce your monthly payment when you enroll in a Qualified Health Plan (QHP).⁷
- **American Rescue Plan (ARP)** helps 4 out of 10 new customers enroll in a plan for \$10 or less per month after federal financial assistance.⁸
- **Cost-sharing reductions** on Silver plans can reduce the amount you pay out of pocket when you get care. Household size and income requirements determine the reduction amount. Cost-sharing reductions may be combined with a premium tax credit.

Native Americans and Alaska Natives may qualify for tax credits and special cost-sharing reductions if specific requirements are met.

3. Care and coverage

The Cigna Connect Network is an **Exclusive Provider Organization (EPO)**, which gives you access to local providers selected with cost and quality in mind. To avoid extra expenses, make sure your current doctor is in-network or consider switching to one who is. To find out if your current doctor is in-network, visit Cigna.com/ifp-providers.

In-network

means the doctors and facilities meet certain requirements and agree to accept a discounted rate for services under your plan.

Out-of-network

means the doctor or facility is not contracted with your health plan and can charge you full price for services.

7. Federal financial assistance can only be applied to the purchase of a QHP, which is an insurance plan that's certified by the Health Insurance Marketplace®, provides essential health benefits, follows established limits on cost-sharing (like deductibles, copayments, and out-of-pocket maximum amounts), and meets other requirements under the Affordable Care Act.

Frequently asked questions.

Q How do I know if my prescriptions are covered?
