Frequently asked questions (FAQs)

Here are answers to questions you may have about your drug list and prescription medication coverage.

Q. How often is the drug list updated? How do I know if my medication coverage changed?

A. We review and update the drug list on a regular basis to make sure you have coverage for low-cost, safe and effective medications. We make changes for many reasons; for example, when a new medication comes out or is no longer available, or when a medication's price changes. These changes may include:

- **Moving a medication to a lower cost tier.** This can happen at any time during the year.
- **Moving a brand medication to a higher cost tier when a generic comes out.** This can happen at any time during the year.
- **Moving a medication to a higher cost tier and/or no longer covering a medication.** This typically happens twice a year on January 1 and July 1.
- **Adding extra coverage rules (requirements) to a medication.** This typically happens twice a year on January 1 and July 1.

When we make a change that affects your medication (for example, it'll cost more, won't be covered, and/or has an extra coverage requirement), we let you know before it happens. This way, you have time to talk with your doctor about your options. Only you and your doctor can decide what's best for your treatment.

Q. Why doesn't my plan cover certain medications?

A. There are some medications and products that your plan won't cover for any reason because they're a "plan (or benefit) exclusion." This means the medication or product isn't on your drug list, and there's no option to ask us to cover it through our review process. For example, your plan doesn't cover (or "excludes") medications that the U.S. Food and Drug Administration (FDA) hasn't approved.

Q. How do you decide which medications to cover?

A. The Cigna Healthcare Prescription Drug List is developed with the help of the Cigna Healthcare Pharmacy and Therapeutics (P&T) Committee, which is a group of practicing doctors and pharmacists, most of whom work outside of Cigna Healthcare. The group meets regularly to review medical evidence and information provided by federal agencies, drug manufacturers, medical professional associations, national organizations and peer-reviewed journals about the safety and effectiveness of medications that are newly approved by the FDA and medications already on the market.

The Cigna Healthcare Health Plan Commercial Value Assessment Committee (HVAC) then looks at the results of the P&T Committee's clinical review, as well as the medication's overall value and other factors before adding it to, or removing it from, the drug list.

Q. Why do certain medications need approval before my plan will cover them?

A. The review process helps make sure you're getting coverage for the right medication, at the right cost, in the right amount and for the right situation.

Q. How do I know if a medication needs approval?

A. Check your drug list or log in to the myCigna App or **myCigna.com** and use the Price a Medication tool. If the medication has:

- **PA** (Prior Authorization) or **ST** (Step Therapy) next to it, it needs approval before your plan will cover it.
- **QL** (Quantity Limit) next to it, you may need approval depending on how much you're filling at one time.
- **AGE** (Age Requirement) next to it, you may need approval depending on your age.

Frequently asked questions (FAQs) (cont.)

Q. What types of medications typically need approval?

A. Medications that:

- May not be safe when you take them with other medications.
- Have lower-cost alternatives that work just as well at treating the same condition.
- Should only be used for certain health conditions.
- Are often used in the wrong way or are abused (taken more often than you should).

Q. What types of medications typically have quantity limits?

A. Medications that are often:

- Taken in a greater amount or used for a longer time than they should be.
- Used in the wrong way or are abused (taken more often than you should).

Q. What medications are part of Step Therapy?

A. They're typically high-cost medications that treat conditions such as:

- | | |
|-----------------------|--------------------|
| • ADD/ADHD | • High cholesterol |
| • Allergies | • Osteoporosis |
| • Bladder problems | • Pain |
| • Breathing problems | • Skin conditions |
| • Depression | • Sleep disorders |
| • High blood pressure | |

Q. Why does my medication have an age requirement?

A. Not all medications are right for all ages. Some medications work best for people of a certain age or within a certain age range. As you get older, body changes can decrease the body's ability to break down or get rid of certain medications. This means that the medication may stay in your body longer. So, an older adult may need a lower dose of the medication or a different medication that's safer.

Q. How do I get approval (prior authorization) for my medication?

A. Ask your doctor's office to contact us to start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can download a request form from our provider portal at cignaforhcp.com.

We'll review the information your doctor sends us to make sure you meet the medication's coverage rules (requirements). We'll send you and your doctor a letter with our decision (approved/not approved) and next steps. It can take up to five (5) business days to hear from us. You can always check with your doctor's office to find out if we've made a decision. Or, you can log in to the myCigna App or [myCigna.com](https://mycigna.com) to see where your medication is in the review process or to read about the decision we made.

Many times, we don't get all of the information we need from the doctor's office to approve coverage. If we don't approve your medication, your doctor can send us more information to review, using the same process as before. We're happy to review the request again. Depending on what your doctor sends this time, we may be able to approve coverage. Or you and your doctor can appeal the decision by sending us a request, in writing, that explains why we should cover the medication.

- **For non-urgent requests**, we'll let you and your doctor know within 72 hours of the decision. If approved, coverage will be provided until the prescription runs out (including refills).
- **For urgent requests based on exigent circumstances**, we'll let you and your doctor know within 24 hours of the decision. If approved, coverage will be provided for the duration of the exigency. If we don't respond to a completed prior authorization exception request within 72 hours of receiving a non-urgent request and 24 hours of receiving a request based on exigent circumstances, the request will be considered approved and your plan can't deny coverage of the medication. Also, if you've already received

approval for your plan to cover your medication, we can't limit or exclude coverage for that medication if your doctor continues to prescribe it to treat your condition (as long as the medication is appropriately prescribed and is safe and effective in treating your condition).

Q. My plan doesn't cover my medication. I need to take it because it's medically necessary for my treatment. How do I get approval (prior authorization) for my medication?

A. If your doctor feels that your medication is necessary for your treatment and an alternative isn't right for you, your doctor can ask us to consider approving coverage of your medication. Ask your doctor's office to contact us to start the coverage review process. They know how the review process works and will take care of everything for you. If approved, coverage will be provided for the duration of the exigency. **It's important to know that when medications are approved, it's typically for one year of coverage.** If your medication is approved for less time, it's because there's a clinical reason based on our coverage requirements for the medication and/or the reviewing doctor.

Q. My medication was just taken off the drug list. My doctor still wants me to take it. What do I have to do to get it covered?

A. You don't need to do anything. If your doctor continues to prescribe the medication, we'll continue to cover it. If your medication already requires prior authorization, your doctor just has to continue to request (and receive) approval for the medication to be covered.

Q. My medication is part of the Step Therapy program. I don't want to try an alternative. How do I get approval (prior authorization) for my medication?

A. If you and your doctor feel an alternative medication won't work for you, your doctor can ask us to consider approving coverage of your current medication. Ask your doctor's office to contact us to start the coverage review process. They know how the review process works and will take care of everything for you. Your Step Therapy rights under California State law:

1. A carrier may impose prior authorization requirements on prescription drug benefits.
2. When there is more than one drug that is appropriate for the treatment of a medical condition, a carrier may require step therapy.
 - a. In circumstances where an insured is changing policies, the new policy shall not require a repeat of step therapy when that insured is already being treated for a medical condition by a prescription drug provided that the drug is appropriately prescribed and is considered safe and effective. A new policy can impose a prior authorization requirement for the continued coverage of a prescription drug prescribed pursuant to step therapy imposed

by the former policy. A new policy must also allow a prescribing provider to prescribe another drug covered by the new policy that is medically appropriate for the insured.

3. A carrier shall provide coverage for the medically necessary dosage and quantity of the drug prescribed for the treatment of a medical condition consistent with professionally recognized standards of practice.

Q. What happens if I try to fill a prescription that needs approval but I don't get approval ahead of time?

A. When your pharmacist tries to fill your prescription, they'll see that the medication needs our approval before it can be covered. Because you didn't get approval ahead of time, your plan won't cover its cost. If that happens, ask your doctor to contact us to start the coverage review process.

You can still fill it (without using your plan/insurance), but you'll pay its full price at the pharmacy counter. And, if you do this, your costs can't be applied to your annual deductible or out-of-pocket maximum.

Q. What happens if I try to fill a prescription that has a quantity limit?

A. Your pharmacist will only fill the amount your plan covers. If you want to fill more than what's allowed, your doctor's office can ask us to cover it through our review process.

Q. Are all of the medications on this drug list approved by the FDA?

A. Yes.

Q. Does my plan cover medications that the FDA recently approved?

A. We review all recently approved medications and products to see if they should be covered, and if so, at what cost-share (tier). These include, but are not limited to, medications, medical supplies and/or devices covered under standard pharmacy benefits. It can take up to six months from the date the FDA approved them for us to make a decision.

Frequently asked questions (FAQs) *(cont.)*

If your doctor wants you to use a recently approved medication, your doctor's office can ask us to cover it through our review process.

Q. Which medications are covered under the health care reform law?

A. The Patient Protection and Affordable Care Act (PPACA), also known as health care reform, helps make health care and preventive care more affordable. PPACA requires health plans to cover the full cost of certain preventive medications and over-the-counter (OTC) products. This means you don't have to pay anything – not even a copay, coinsurance or deductible for these products.

To see a list of \$0 medications, go to **Cigna.com/PDL** and click on the dropdown next to "Drug Lists for Employer Plans." Under the Preventive Drug Lists section, click on the link for the PPACA No Cost-Share Preventive Drug List.

Q. I see several medications on this drug list that can be used to treat my condition. Will my doctor write me a prescription for all of them?

A. No. Just because a medication is listed on your plan's drug list doesn't mean your doctor will write you a prescription for it. Your doctor will work with you to find the medication he or she feels is best for your specific treatment.

Q. How can I find out how much I'll pay for a specific medication?

A. When you and your doctor are thinking about the right medication for your treatment, knowing how much it costs, what lower-cost options are available, and which pharmacies have the best prices can help you avoid surprises. Log in to the myCigna App or **myCigna.com** and use the Price a Medication tool to see how much your medication costs before you get to the pharmacy counter – or even before you leave your doctor's office.²

Q. What's a cost-share?

A. It's the amount you pay out of your own pocket for a covered prescription and/or an eligible health care or related service. For some plans, the cost-share is a copay; for other plans, it's a coinsurance.

Q. How can I save money on my prescription medications?

A. You should think about using a medication that's covered on a lower tier, such as a generic or preferred brand medication, or by filling a 90-day supply (if your plan allows). Ask your doctor if one of these options may work for you.

Q. What's a generic medication?

A. A generic is the same as its brand-name version. It has the same active ingredient, strength and dosage form, treats the same condition(s), and works in the same way – and typically costs less.³ Generics are typically sold under their chemical or scientific name, instead of the brand name.

Q. Do generics work the same as brand-name medications?

A. Yes. A generic medication works in the same way and provides the same clinical benefit as the brand-name medication.³

Q. What are the differences between generic and brand-name medications?

- A.** The generic and brand-name medication may³:
- Look different. For example, generics may have a different shape, size or color than their brand-name versions.
 - Have a different flavor and/or different preservatives, come in different packaging and/or with different labeling and may expire at different times.

It's important to know that these differences don't affect how the generic works.

Q. What is a "biosimilar" medication?

A. A biosimilar is "highly similar" to its original biologic medication, which is also known as a reference product, that the FDA has already approved. Even though biosimilars aren't identical to the original medication, they're used to treat the same conditions, and provide the same clinical outcomes and treatment benefits. There are no clinical differences in how safe they are to use and how well they work. They also typically cost less.⁴

Frequently asked questions (FAQs) (cont.)

Q. Can I fill my prescription at any pharmacy in my network?

A. It depends. Some plans only allow fills at certain in-network pharmacies or through home delivery. Log in to the myCigna App or **myCigna.com**, or check your plan materials, to learn more about the pharmacies in your plan's network.

Q. How do I know which pharmacies are in my plan's network?

A. There are thousands of retail pharmacies in your plan's network. They include local pharmacies, grocery stores, retail chains and wholesale warehouse stores – all places where you may already shop. And some stores are open 24-hours. To find an in-network pharmacy near you, log in to the myCigna App or **myCigna.com**. Then click on the Prescriptions tab and choose “Find a Pharmacy” from the dropdown list.

Q. My pharmacy isn't in my plan's network. Can I continue to fill my prescriptions there?

A. To get the most from your plan coverage, you should use an in-network pharmacy. If your plan offers out-of-network coverage, you'll pay your out-of-network cost-share to fill a prescription there.

Q. Do I have to use home delivery to fill my prescription?

A. It depends on your plan. Some plans require you to fill maintenance medications through Express Scripts® Pharmacy and/or specialty medications through Accredo® Specialty Pharmacy for them to be covered.⁵ Log in to the myCigna App or **myCigna.com**, or check your plan materials, to find out what your plan requires.

Q. Can I fill my prescriptions by mail?

A. Yes, as long as your plan offers home delivery.⁵

Fill maintenance medications through Express Scripts Pharmacy

Express Scripts Pharmacy is a convenient option when you're taking a medication on a regular basis to treat an ongoing health condition. It's simple and safe, and saves you trips to the pharmacy. To learn more, go to **Cigna.com/homedelivery**.

- Easily order, manage, track and pay for your medications on your phone or online.
- Get standard shipping at no extra cost.⁶
- Fill up to a 90-day supply at one time.
- Talk with a pharmacist, 24/7.
- Sign up for automatic refills or refill reminders so you don't miss a dose.⁷
- Use a payment plan (if you need it).

Here are two easy ways to get started:

1. **Online.** Log in to the myCigna App or **myCigna.com** and click on the Prescriptions tab. Choose My Medications from the dropdown list. Then click the button next to your medication name to move your prescription(s) from your retail pharmacy to home delivery. Or,
2. **By phone.**
 - Call your doctor's office. Ask them to send a 90-day prescription (with refills) to Express Scripts home delivery. Or,
 - Call Express Scripts Pharmacy at **800.835.3784**. They'll contact your doctor's office to get your prescription. Have your ID card, doctor's contact information and medication name(s) ready when you call.

Fill specialty medications through Accredo Specialty Pharmacy

If you're using a specialty medication, Accredo's team can help you manage your rare and/or complex medical condition. They'll also fill and ship your specialty medication to you, so you don't have to stand in line at the pharmacy. To learn more, go to **Cigna.com/specialty**.

- Talk with specially-trained pharmacists and nurses, 24/7.

- Get fast shipping at no extra cost.⁶
- Sign up for refills and reminders. Some refills can be done by text.⁸
- Get help paying for your medication (if you need it).
- Manage and track your medications online.

To get started, call **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST and Saturdays, 7:00 am–4:00 pm CST.

Q. I take a medication every day to treat diabetes. My plan requires me to fill my medication through Express Scripts Pharmacy. How do I get started?

A. Some plans allow one or more fills at a retail pharmacy before you have to switch to home delivery. Check your plan materials to find out if your plan allows retail fills.

Here are two easy ways to get started:

1. **Online.** Log in to the myCigna App or **myCigna.com** and click on the Prescriptions tab. Choose My Medications from the dropdown list. Then click the button next to your medication name to move your prescription(s) from your retail pharmacy to home delivery. Or,
2. **By phone.**

 - Call Express Scripts Pharmacy at **800.835.3784**. They'll contact your doctor's office to get your prescription. Have your ID card, doctor's contact information and medication name(s) ready when you call.

Q. I take a specialty medication to treat my multiple sclerosis. My plan requires me to fill my medication through Accredo. How do I get started?

A. Some plans allow one or more fills at a retail pharmacy before switching to Accredo. Check your plan materials to find out if your plan allows retail fills.

To get started using Accredo, call **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST and Saturdays, 7:00 am–4:00 pm CST. Be sure to call them about two weeks before your next refill so they have time to get a new prescription from your doctor's office.

Q. I take a specialty medication that can only be filled at certain pharmacies in the United States. How do I fill my prescription?

A. Talk with your doctor. He or she should be able to tell you which in-network pharmacies can fill your prescription. Once you find a pharmacy, ask your doctor to send them your prescription.

You may also be able to use Accredo to fill your prescription; they have access to most specialty medications.⁵ Call Accredo at **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST or Saturdays, 7:00 am–4:00 pm CST, for more information.

Q. How do I fill my prescription?

A. First, you'll need to get a prescription from your doctor. Then, your doctor can either:

1. **Send it electronically** to the in-network retail pharmacy of your choice, Express Scripts home delivery or Accredo. Or
2. **Give you a paper prescription.** You can bring it to the in-network retail pharmacy of your choice or mail it to Express Scripts Pharmacy or Accredo.

Q. How can I get help with my specialty medication?

A. Managing a rare and/or complex medical condition isn't easy. Accredo's team of specialty-trained pharmacists and nurses can help. They'll also fill and ship your specialty medication to you, so you don't have to stand in line at the pharmacy.

Go to **Cigna.com/specialty** to learn more about Accredo or call **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST or Saturdays, 7:00 am–4:00 pm CST.

Frequently asked questions (FAQs) (cont.)

Q. Where can I find more information about my pharmacy benefits?

A. Use the online tools and resources on the myCigna App or **myCigna.com**. You can find out how much your medication costs (and what lower-cost options may be available), see which medications your plan covers, find an in-network pharmacy, ask a pharmacist a question, see your pharmacy claims and coverage details, and more. You can also manage your home delivery orders.

Q. How can I find out my cost-share for each tier of the drug list?

A. We put covered medications into tiers (or cost-share levels). Typically, the higher the tier, the higher the price you'll pay for the medication. Here are three places you can go to find out how much you'll pay for your medication based on the tier it's listed in, including the maximum cost-share amount allowed:

1. **Check your Cigna Healthcare ID card.** It lists your cost-share for Tier 1, Tier 2 and Tier 3 medications.
2. **Log in to the myCigna App or myCigna.com to view your pharmacy coverage information.** You can also use the Price a Medication tool to find out how much your medication may cost you at the different pharmacies in your plan's network.
3. **Check your Summary of Benefits** coverage document.

Q. What's the difference between medications covered under the pharmacy benefit and medical benefit?

A. Some medications are covered under the pharmacy benefit, some are covered under the medical benefit and others are covered under both benefits. Log in to the myCigna App or **myCigna.com**, or check your plan materials, to learn more about how your plan covers your medication.

- Medications that you fill at the pharmacy and take yourself are typically covered under the pharmacy benefit.

- Medications that are injected or infused and are given to you at a doctor's office, hospital, an infusion center or at home are typically covered under the medical benefit.

Why this matters: Which benefit the medication's covered under may affect how much it costs, if it needs approval from Cigna Healthcare before your plan will cover it and/or if you have to fill it through a certain pharmacy to be covered. Check your medical summary of benefits coverage to learn more about how your plan covers your medication.

Q. I take an oral cancer medication. How much will it cost me to fill?

A. On January 1, 2015, California passed a bill limiting the cost-share for oral chemotherapy medications. This means that if you have both your medical and pharmacy benefits through Cigna Healthcare, here's how certain oral cancer medications are covered:

- **For copay plans:** These medications will be covered at 100%, or no cost-share (\$0) to you.
- **For high deductible health plans (HDHPs) that include a Health Savings Account (HSA) or qualified HDHPs:** You'll pay your plan deductible first. After that, these medications will be covered at 100%, or no cost-share (\$0) to you. This is because of a federal HSA requirement.
- **For plans with a combined deductible [including Health Reimbursements Accounts (HRAs) with a combined deductible]:** You'll pay your plan deductible first. After that, these medications will be covered at 100%, or no cost-share (\$0) to you.
- **For plans with a split deductible [including Health Reimbursements Accounts (HRAs) with a split deductible]:** These medications will be covered at 100%, or no cost-share (\$0) to you.

Q. How are medications, devices and FDA-approved diabetic, contraceptive and federally-mandated products covered under the pharmacy benefit?

A. Here is how these products are covered under the pharmacy benefit:

- **Preventive care medications and products covered under the Patient Protection and Affordable Care Act (PPACA), also known as “health care reform:”**
 - **Contraceptives:** Covered at 100%, or no cost-share (\$0) to you. Certain prescription contraceptives are available at their applicable cost-share.
 - **Tobacco cessation products:** Up to two (2) 90-day courses of treatment per plan year are covered at 100%, or no cost-share (\$0) to you. Certain prescription tobacco cessation products are available at their applicable cost-share.
 - **Certain vitamins:** Covered at 100%, or no cost-share (\$0) to you. All other prescription vitamins are available at their applicable cost-share and deductible (if applicable).
- **Certain over-the-counter (OTC) products:** If you have a prescription from your doctor, these are covered at 100%, or no cost-share (\$0) to you. All other OTC products are excluded from coverage.
- **Oral fertility medications:** Covered at their applicable tier cost-share. For some plans, injectable fertility medications are covered under the medical benefit.
- **Generic preventive care medications:** Covered at 100%, or no cost-share (\$0) to you before you meet your deductible. You'll pay your deductible and applicable cost-share to fill a preferred brand and/or non-preferred brand preventive care medication.
- **Diabetic supplies:** Covered at their applicable cost-share.
- **Growth Hormones:** Need approval from Cigna Healthcare before your plan will cover them (prior authorization). If you receive approval for coverage, you'll pay your applicable tier cost-share to fill the medication.
- **Vaccines:** Vaccines are now covered under the pharmacy benefit. Not all plans cover vaccines in the same way. Log in to the myCigna App or **myCigna.com**, or check your plan materials, to find out how your specific plan covers them.
- **Compounded medications:** If the medication is more than \$200, you'll need approval from Cigna Healthcare before your plan will cover them (prior authorization). coverage, you'll pay your applicable tier cost-share to fill the medication.

Words you may need to know

- **Brand name drug:** A drug that is marketed under a proprietary, trademark-protected name. The brand name drug shall be listed in all CAPITAL letters.
- **Coinsurance:** A percentage of the cost of a covered health care benefit that an enrollee pays after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.
- **Copayment:** A fixed dollar amount that an enrollee pays for a covered health care benefit after the enrollee has paid the deductible, if a deductible applies to the health care benefit, such as the prescription drug benefit.
- **Deductible:** The amount an enrollee pays for covered health care benefits before the enrollee's health plan begins payment for all or part of the cost of the health care benefit under the terms of the policy.

Information about this drug list

Words you may need to know (cont.)

- **Drug tier:** A group of prescription drugs that corresponds to a specified cost sharing tier in the health plan's prescription drug coverage. The tier in which a prescription drug is placed determines the enrollee's portion of the cost for the drug.
- **Enrollee:** A person enrolled in a health plan who is entitled to receive services from the plan.
- **Exception request:** A request for coverage of a prescription drug. If an enrollee, his or her designee, or prescribing health care provider submits an exception request for coverage of a prescription drug, the health plan must cover the prescription drug when the drug is determined to be medically necessary to treat the enrollee's condition.
- **Exigent circumstances:** When an enrollee is suffering from a health condition that may seriously jeopardize the enrollee's life, health, or ability to regain maximum function, or when an enrollee is undergoing a current course of treatment using a nonformulary drug.
- **Formulary:** The complete list of drugs preferred for use and eligible for coverage under a health plan product, and includes all drugs covered under the outpatient prescription drug benefit of the health plan product. Formulary is also known as a prescription drug list.
- **Generic drug:** The same drug as its brand name equivalent in dosage, safety, strength, how it is taken, quality, performance, and intended use. A generic drug is listed in bold and italicized lowercase letters.
- **Non-formulary drug:** A prescription drug that is not listed on the health plan's formulary.
- **Out-of-pocket costs:** Copayments, coinsurance, and the applicable deductible, plus all costs for health care services that are not covered by the health plan.
- **Prescribing provider:** A health care provider authorized to write a prescription to treat a medical condition for a health plan enrollee.
- **Prescription:** An oral, written, or electronic order by a prescribing provider for a specific enrollee that contains the name of the prescription drug, the quantity of the prescribed drug, the date of issue, the name and contact information of the prescribing provider, the signature of the prescribing provider if the prescription is in writing, and if requested by the enrollee, the medical condition or purpose for which the drug is being prescribed.
- **Prescription drug:** A drug that is prescribed by the enrollee's prescribing provider and requires a prescription under applicable law.
- **Prior Authorization:** A health plan's requirement that the enrollee or the enrollee's prescribing provider obtain the health plan's authorization for a prescription drug before the health plan will cover the drug. The health plan shall grant a prior authorization when it is medically necessary for the enrollee to obtain the drug.
- **Step Therapy:** A process specifying the sequence in which different prescription drugs for a given medical condition and medically appropriate for a particular patient are prescribed. The health plan may require the enrollee to try one or more drugs to treat the enrollee's medical condition before the health plan will cover a particular drug for the condition pursuant to a step therapy request. If the enrollee's prescribing provider submits a request for step therapy exception, the health plans shall make exceptions to step therapy when the criteria is met.
- **Subscriber:** The person who is responsible for payment to a plan or whose employment or other status, except for family dependency, is the basis for eligibility for membership in the plan.

About this drug list

This is a list of the most commonly prescribed medications covered on the Cigna Healthcare Legacy (Standard) 3-Tier Prescription Drug List as of January 1, 2026. **The drug list is updated often**; so, not all of the medications your plan covers may be listed here. Also, your plan may not cover all of these medications. Log in to the myCigna App or **myCigna.com** to see which medications your plan covers.

How to read this drug list

Medications are listed alphabetically by their generic and brand names within their therapeutic category and class.* You can also find your medication using the index at the end of this drug list.

- The generic version of a brand-name medication is listed in parentheses and in **bold, lowercase italicized** letters next to the brand-name medication.
- If a generic equivalent for a brand-name medication is both available and covered, the generic will be listed separately from the brand-name medication in **bold, lowercase italicized** letters.
- If a generic equivalent for a brand-name medication isn't available on the market or isn't covered, the medication won't be listed separately by its generic version.
- If a generic medication is marketed under a proprietary, trademark-protected brand name, the brand-name medication will be listed in CAPITAL letters after the generic version in parentheses and regular typeface with the first letter of each word capitalized. For example: *quinapril hcl* (Accupril).

Tiers

We put covered medications into tiers (or cost-share levels). Typically, the higher the tier, the higher the price you'll pay for the medication.

Tier 1	Generics. These medications are covered at your plan's lowest cost-share. Generics work in the same way and provide the same clinical benefits as their brand-name versions – and typically cost much less. ³	\$
Tier 2	Preferred Brands. These medications typically have one or more lower-cost generic that treats the same condition.	\$\$
Tier 3	Non-Preferred Brands. These medications are covered at your plan's highest cost-share. Non-preferred brands typically have a generic and/or preferred brand alternative(s) that treats the same condition.	\$\$\$

* Medications are listed in the therapeutic category and class provided by First Databank.

Letters (acronyms) in the Notes column

In this drug list, some medications have **letters (acronyms)** next to them in the Notes column. Here's what they mean.

PA	Prior Authorization* – This medication needs approval from Cigna Healthcare before your plan will cover it. Your doctor's office will have to send us information to review to make sure you meet the medication's coverage rules (requirements).
QL	Quantity Limit* – Your plan will only cover so much of this medication at one time. If your doctor wants you to fill more than what's allowed, your doctor's office can ask us to cover more.
ST	Step Therapy* – This is a high-cost medication that has a lower-cost alternative(s) that treats the same condition. Your plan won't cover this medication until you try at least one preferred medication first (typically a generic or preferred brand) and can show that it didn't work for you. If your doctor feels a preferred medication isn't right for you, your doctor's office can ask us to cover the higher-cost medication.
AGE	Age Requirement* – Your plan will only cover this medication if you're a certain age or within a certain age range. If you're not within the allowed age range and your doctor wants you to use the medication, your doctor's office can ask us to cover it.
SP	This is a specialty medication , which is used to treat a rare and/or complex medical condition. Some plans have extra coverage rules (requirements) for specialty medications. For example, some may only cover up to a 30-day supply and/or require you to fill it at a preferred specialty pharmacy to be covered.
HD	Home Delivery Medications – Some plans only cover certain maintenance medications if they're filled through home delivery with Express Scripts Pharmacy. Depending on your plan, you may be able to get coverage for one, two or three fills at an in-network retail pharmacy before you have to switch to home delivery.
PPACA	Health care reform under the Patient Protection and Affordable Care Act (PPACA) requires plans to cover the full cost of this preventive medication or product. This means you don't have to pay anything – not even a copay, coinsurance or deductible.
CSL	Oral Cancer Medications Subject to Cost-Share Limits – State law in California limits the cost-share (or amount you pay out-of-pocket) for certain oral chemotherapy medications.

* Not all plans have extra coverage rules (requirements) on medications. Log in to the myCigna App or myCigna.com, or check your plan materials, to see if yours does.

Exclusions and limitations for coverage

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. If your plan provides coverage for certain preventive prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, the prescription may not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans generally do not provide coverage for the following under the pharmacy benefit, except as required by state or federal law, or by the terms of your specific plan:¹⁰

- Over-the-counter (OTC) medicines (those that do not require a prescription) except insulin unless state or federal law requires coverage of such medicines.
 - Prescription medications or supplies for which there is a prescription or OTC therapeutic equivalent or therapeutic alternative.
 - Doctor-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the Plan's prescription drug list or approved by Cigna Healthcare.
 - Implantable contraceptive devices covered under the Plan's medical benefit.
 - Medications that are not medically necessary.
 - Experimental or investigational medications, including U.S. Food and Drug Administration (FDA)-approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication.
 - Medications that are not approved by the FDA.
 - Prescription and non-prescription devices, supplies, and appliances other than those supplies specifically listed as covered.
 - Medications used for fertility,¹¹ sexual dysfunction, cosmetic purposes, weight loss, smoking cessation,¹¹ or athletic enhancement.
 - Prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such products.
 - Immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis.
 - Replacement of prescription medications and related supplies due to loss or theft.
 - Medications which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals.
 - Prescriptions more than one year from the date of issue.
 - Coverage for prescription medication products for the amount dispensed (days' supply) which is more than the applicable supply limit, or is less than any applicable supply minimum set forth in The Schedule, or which is more than the quantity limit(s) or dosage limit(s) set by the P&T Committee.
 - More than one prescription order or refill for a given prescription supply period for the same prescription medication product prescribed by one or more doctors and dispensed by one or more pharmacies.
 - Prescription medication products dispensed outside the jurisdiction of the United States, except as required for emergency or urgent care treatment.
- In addition to the plan's standard pharmacy exclusions, certain new FDA-approved medication products (including, but not limited to, medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless approved by Cigna Healthcare as medically necessary.

Cigna Healthcare reserves the right to make changes to the drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the U.S. Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

1. App/online store terms and mobile phone carrier/data charges apply. Customers under age 13 (and/or their parent/guardian) will not be able to register at myCigna.com.
2. Prices shown on myCigna are not guaranteed and coverage is subject to your plan terms and conditions. Visit myCigna for more information.
3. U.S. Food and Drug Administration (FDA) website, "Generic Drug Facts." Content current as of 11/01/21. [fda.gov/drugs/generic-drugs/generic-drug-facts](https://www.fda.gov/drugs/generic-drugs/generic-drug-facts).
4. U.S. Food and Drug Administration (FDA) website, "Biosimilar Basics for Patients." Last updated 08/01/24. [fda.gov/drugs/biosimilars/biosimilars-basics-patients](https://www.fda.gov/drugs/biosimilars/biosimilars-basics-patients).
5. **Not all plans offer Express Scripts Pharmacy and Accredo as covered pharmacy options.** Log in to the myCigna App or myCigna.com, or check your plan materials, to learn more about the pharmacies in your plan's network. Cigna Healthcare, Evernorth Health Services, Express Scripts and Accredo are all part of The Cigna Group. This means we have an ownership interest in Express Scripts Pharmacy's home delivery services and Accredo's specialty pharmacy services. However, you have the right to fill prescriptions at any pharmacy in your plan's network (as your plan allows).
6. Your plan pays the cost for standard shipping.
7. Express Scripts Pharmacy can automatically refill certain medications. Log in to the myCigna App or myCigna.com, or call 800.835.3784, to sign up. You can sign up to get emails and/or texts from Express Scripts Pharmacy. To get text messages, you'll have to sign up for the Express Scripts texting service. You can do this online or when you call 800.835.3784 to refill your prescription. Once you sign up, just reply to their welcome text to get started. Standard text messaging rates apply.
8. You can only refill certain specialty medications by text. To get text messages, you'll have to sign up for Accredo's texting service. You can do this when you call Accredo to refill your prescription. Once you sign up, just reply to their welcome text to get started. Standard text messaging rates apply.
9. **For insured plans that must follow Delaware's state insurance laws:** Brand-name antidepressants, smoking cessation, attention deficit hyperactivity disorder (ADHD) and anti-psychotic medications that don't have a generic equivalent available will be covered as Tier 2 (preferred brand). This is true even if the medication is listed as Tier 3 (non-preferred brand) on your plan's drug list. To find out how your specific plans covers these medications, log in to the myCigna App or myCigna.com, or call the number on your ID card.
10. Costs and complete details of the plan's prescription drug coverage are set forth in the plan documents. If there are any differences between the information provided here and the plan documents, the information in the plan documents takes complete precedence.
11. **For plans that must follow state insurance laws, such as Delaware:** Your plan may provide coverage for infertility medications and smoking cessation medications even if this drug list states that your plan may not cover them. To find out if your specific plan covers these medications, log in to the myCigna App or myCigna.com, or check your plan materials.
