

# Diabetes Related Supplies Drug List

As of January 1, 2026

Diabetes related supplies are important tools to help you manage diabetes. They provide real-time information about your blood sugar levels. This helps you and your doctor make decisions about your diabetes care plan.<sup>1</sup> Your plan covers certain diabetes related supplies as preventive products.

## About this drug list

This is a list of the most common diabetes related supplies health care providers write prescriptions for.

- Products are listed in alphabetical order (A-Z).
- Generics are listed in all lowercase letters and brands are listed in all CAPITAL letters.
- Most brand-name diabetes related supplies that have a generic version aren't covered at your plan's preventive cost-share.
- This drug list doesn't show the preventive products that are covered at no cost-share (\$0) under the Patient Protection and Affordable Care Act (PPACA)'s preventive services coverage requirement.
- **This drug list is updated often;** so, not all of the products your plan covers may be listed here. Also, your plan may not cover all of these products. Log in to the myCigna® App<sup>2</sup> or **myCigna.com**® to see which ones your plan covers.

## Your preventive cost-share

Not all plans have the same cost-share for preventive products. For example, some plans have a copay, coinsurance and/or deductible; other plans don't.

Log in to the myCigna App or **myCigna.com** and use the Price a Medication tool to see how much your diabetes related supplies cost.<sup>3</sup>

## Go generic and save

Ask your doctor if a generic product may be right for you. Generics work in the same way and provide the same clinical benefit as their brand-name versions – and usually cost less.<sup>4</sup>

## Diabetes Related Supplies Drug List

Your plan may not cover all of these products. Log in to the myCigna App or **myCigna.com**, or check your plan materials, to see which ones your plan covers and how much they cost to fill.

**Para obtener ayuda en español llame al número en su tarjeta de Cigna Healthcare.**

Cigna Healthcare reserves the right to make changes to this drug list without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna Healthcare does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna Healthcare may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna Healthcare. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and medically necessary. If your plan provides coverage for certain prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, your prescription may not be covered, or reimbursement may be limited by your plan's copayment, coinsurance or deductible requirements. Certain features described in this document may not be applicable to your specific health plan, and plan features may vary by location and plan type. Refer to your plan documents for costs and complete details of your plan's prescription drug coverage.

Cigna Healthcare products and services are provided exclusively by or through operating subsidiaries of The Cigna Group.
