### Cigna Healthcare Dental plans

#### Cigna Healthcare Dental terms

Below you will find easy-to-understand definitions for commonly used words and phrases.

**Actual billed charges:** The fee that a provider charges a patient who does not have dental insurance for a service. If a patient has dental insurance and visits an Advantage provider, the provider charges the negotiated rate/contracted fee for covered services.

**Balance billing:** When an out-of-network provider bills you for the difference between the charges for a service and what Cigna Healthcare will pay for that service after coinsurance and the contracted fee have been applied. For example, an out-of-network provider may charge \$100 to fill a cavity. If the contracted fee is \$50 for that service and the coinsurance is 50%, assuming the calendar-year deductible has already been met, Cigna Healthcare will pay \$25 and you will pay \$25. Because you are visiting an out-of-network provider, the provider may bill you the remaining \$50; thus, your total out-of-pocket cost could be \$75. Balance billing charges are separate from any applicable deductible and coinsurance.

**Plan deductible:** The dollar amount you must pay each year for eligible dental expenses before the insurance begins paying for basic and major and restorative care services and orthodontia, if covered by your plan.

**Plan maximum:** The most you will pay for covered services during a calendar year (12-month period beginning each January 1). You will no longer have to pay any coinsurance for covered dental services for the remainder of that year once you reach your calendar-year out-of-pocket maximum.

**Advantage or Total network:** A network made up of dentists who have contracted with Cigna Healthcare and agreed to accept a predetermined contracted fee for the services provided to Cigna Healthcare customers. Visiting a provider in this network means you'll save the most money because the fee is discounted.

**Coinsurance:** Your share of the cost of a covered dental service (a percentage amount). You pay coinsurance plus any deductible amount not met yet for that calendar year. For example, if you go to the dentist and your visit costs \$200, the dentist sends a claim to Cigna Healthcare. If you have already met your annual deductible amount, Cigna Healthcare may pay 80% (\$160) and you will pay a coinsurance of 20% (\$40).

**Contracted fee:** The fee to be charged for a service that Cigna Healthcare has negotiated with a contracted provider on your behalf. The most Cigna Healthcare will pay a dentist for a covered service or procedure for out-of-network dental care is based on a basic Advantage fee schedule within a specified area. See example provided under balance billing.

**Out-of-network providers:** Providers who have not contracted with Cigna Healthcare to offer you savings. They charge their own standard fees, also referred to as actual billed charges.

**Hearing Aid:** Means a non-experimental, wearable electronic instrument or device designed for the ear and offered for the purpose of aiding or compensating for impaired human hearing, excluding batteries, cords, and other Assistive Listening Devices, including, but not limited to, frequency modulation systems.
