Cigna Dental Plans

Dental Terms

Below you will find easy-to-understand definitions for commonly used words.

Actual Billed Charges: The fee that a provider charges to a patient for a service who does not have dental insurance. If a patient has dental insurance and visits a Cigna DPPO Advantage Network provider, the provider charges the negotiated rate/contracted fee.

Balance Billing: When an out-of-network provider bills you for the difference between the charges for a service, and what Cigna will pay for that service and Contracted Fee (CF) have been applied. For example, an out-of-network provider may charge \$100 for a cleaning. If the CF is \$50 for that service Cigna will pay \$50. Because you are visiting an out-of-network provider, the provider may bill you the remaining \$50.

Cigna DPPO Advantage Network: Dentists that have contracted with Cigna and agreed to accept a predetermined contracted fee for the services provided to Cigna customers. Visiting a provider in this network means you'll save the most money, because the fee is discounted.

Contracted Fee (CF): The most Cigna will pay a dentist for a covered service or procedure for out-of-network dental care that is based on a basic Cigna DPPO Advantage fee schedule within a specified area. See example provided under Balance Billing.

Non-Participating Providers (Out-of-Network): Providers who have not contracted with Cigna to offer you savings. They charge their own fees. Covered expenses for Non-Participating Providers are based on the Contracted Fee which may be less than Actual Billed Charges. Non-Participating Providers can bill you for amounts exceeding covered expenses.

 - Replacement occurs at least 84 consecutive months after the initial date of insertion of an existing fixed bridge (if the prior bridge is less than 84 consecutive months old, and replacement is needed due to an additional necessary extraction of a functioning natural tooth while the person is covered under this plan.
