### View your plan's drug list online

This document was last updated on 09/01/2020.\* To see a more current list of medications your plan covers, log in to the **myCigna**® App or website. Click on the "Find Care & Costs" tab. Select "Price a Medication," then type in your medication name.

### Questions?

Call the toll-free number on your Cigna ID card. We're here to help. You can also chat with us online on the **myCigna** website, Monday-Friday, 9:00 am-8:00 pm EST.

\* Drug list created: originally created 01/01/2004

Last updated: 09/01/2020, for changes starting 01/01/2021

Next planned update: 03/01/2021, for changes starting 07/01/2021

## About your prescription drug list

This document shows the most commonly prescribed medications covered on the Standard 4-Tier Prescription Drug List as of January 1, 2021.<sup>1,2</sup> All of these medications are approved by the U.S. Food and Drug Administration (FDA). Medications are listed by the condition they treat, then listed alphabetically within tiers (or cost-share levels).

**The Standard 4-Tier Prescription Drug List is updated often so it's important to know that this is not a complete list of the medications your plan covers.** Also, your specific plan may not cover all of the medications in this document. Log in to the **myCigna** App or website, or check your plan materials, to see which medications your plan covers.

## How to read your drug list

Use the sample chart below to help you understand this drug list. **This chart is just an example.** It may not show how these medications are actually covered on the Standard 4-Tier Prescription Drug List.

TIER 1 \$	TIER 2 \$\$	TIER 3 \$\$\$
<b>HORMONAL AGENTS</b>		
Amabelz budesonide EC cabergoline (QL) Covaryx Covaryx H.S. Decadron desmopressin dexamethasone estradiol- norethindrone estrogen- methyltestosterone levothyroxine Levoxyl liothyronine medroxy-progesterone methimazole methylprednisolone Mimvey Mimvey Lo Nature-Throid NP Thyroid prednisolone prednisolone ODT prednisone prednisone intensol progesterone	Androderm (PA, QL) AndroGel 1.62% (PA, QL) Armour Thyroid Cytomel 50mcg Divigel Duavee Estring (QL) Premarin Premphase Prempro Synthroid	Activella Alora (QL) AndroGel 1.0% (PA, QL) Angeliq Climara Climara Pro Combipatch Cytomel 5, 25mcg Depo-Testosterone Elestrin Entocort EC Estrace Estrogel Evamist Femring Intrarosa Levo-T Menostar (QL) Minivelle (QL) Osphena Tirosint Unithroid Vagifem (QL) Vivelle-Dot (QL)

**Tier** (cost-share level) gives you an idea of how much you may pay for a medication

Medications are grouped by the **condition** they treat; Speciality medications are listed on Tier 4 (pages 16-21)

Medications are listed in **alphabetical** order within each column

Medications that have extra coverage requirements will have an **abbreviation** listed next to them

Brand name medications are **capitalized**

Generic medications are **lowercase**

This chart is just a sample. It may not show how these medications are actually covered on the Standard 4-Tier Prescription Drug List.

## Tiers

Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the higher the price you'll pay to fill the prescription.

› <b>Tier 1 - Typically Generics</b>	(Lowest-cost medication)	\$
› <b>Tier 2 - Typically Preferred Brands</b>	(Medium-cost medication)	\$\$
› <b>Tier 3 - Typically Non-Preferred Brands</b>	(Higher-cost medication)	\$\$\$
› <b>Tier 4 - Specialty Medications</b>	(Highest-cost medication)	\$\$\$\$

## Abbreviations next to medications

Some medications on your drug list have extra requirements before your plan will cover them.\* This helps to make sure you're receiving coverage for the right medication, at the right cost, in the right amount and for the right situation. These medications will have an abbreviation next to them in the drug list. Here's what each of the abbreviations mean.

<b>(PA)</b>	<b>Prior Authorization</b> - Cigna will review information your doctor provides to make sure you meet coverage guidelines for the medication. If approved, your plan will cover the medication.
<b>(ST)</b>	<b>Step Therapy</b> - Certain high-cost medications are part of the Step Therapy program. Step Therapy encourages the use of lower-cost medications (typically generics and preferred brands) that can be used to treat the same condition as the higher-cost medication. These conditions include, but are not limited to, depression, high blood pressure, high cholesterol, skin conditions and sleep disorders. Your plan doesn't cover the higher-cost Step Therapy medication until you try one or more alternatives first (unless you receive approval from Cigna).
<b>(QL)</b>	<b>Quantity Limits</b> - For some medications, your plan will only cover up to a certain amount over a certain length of time. For example, 30mg per day for 30 days. Your plan will only cover a larger amount if your doctor requests and receives approval from Cigna.
<b>(AGE)</b>	<b>Age Requirements</b> - For certain medications, you must be within a specific age range for your plan to cover them. This is because some medications aren't considered clinically appropriate for individuals who aren't within that age range.

\*These coverage requirements may not apply to your specific plan. That's because some plans don't have prior authorization, quantity limits, Step Therapy and/or age requirements. Log in to the myCigna App or website, or check your plan materials, to find out if your plan includes these specific coverage requirements.

## Brand name medications are capitalized

In this drug list, brand name medications are capitalized and generic medications are lowercase.

## Specialty medications are marked with an asterisk

Specialty medications are used to treat complex medical conditions like multiple sclerosis, hepatitis C and rheumatoid arthritis. In this drug list, oral and injectable specialty medications are covered on Tier 4 (see page 18). Injectable specialty medications are marked with an asterisk (\*) and oral specialty medications are marked with a double asterisk (\*\*).

Your plan may also limit coverage to a 30-day supply and/or require you to use a preferred specialty pharmacy to receive coverage. Log in to the **myCigna** App or website, or check your plan materials, to learn more about how your plan covers specialty medications.

## No cost-share preventive medications are marked with a plus sign

Health care reform under the Patient Protection and Affordable Care Act (PPACA) requires that most plans cover certain categories of medications and other products as preventive care services. In this drug list, medications with a plus sign (+) next to them may be available to you at no cost-share (copay, coinsurance and/or deductible). Log in to the **myCigna** App or website, or check your plan materials, to learn more about how your plan covers preventive medications.

## Plan exclusions

Your plan excludes certain types of medications or products from coverage. This is known as a “plan (or benefit) exclusion.” This means that your plan doesn’t cover any prescription medications in the drug class or to treat the specific condition. There’s also no option to receive coverage through a medication review process. In this drug list, these medications have a caret (^) next to them. Log in to the **myCigna** App or website, or check your plan materials, to find out if your plan excludes your medication from coverage.

## How to find your medication

Find your condition in the alphabetical list below. Then go to that page to see the covered medications available to treat the condition.

Condition	Page	Condition	Page
ALLERGY/NASAL SPRAYS	6	FEMININE PRODUCTS	11

## Prescription drug list FAQs

Understanding your prescription medication coverage can be confusing. Below are answers to some commonly asked questions.

### Why do you make changes to the drug list?

Cigna regularly reviews and updates the prescription drug list. We make changes for many reasons – like when new medications become available or are no longer available, or when medication prices change. We try to give you many options to choose from to treat your health condition. These changes may include:<sup>1,2</sup>

- Moving a medication to a lower cost tier. This can happen at any time during the year.
- Moving a brand medication to a higher cost tier when a generic becomes available. This can happen at any time during the year.
- Moving a medication to a higher cost tier and/or no longer covering a medication. This typically happens twice a year on January 1<sup>st</sup> and July 1<sup>st</sup>.
- Adding coverage requirements to a medication. For example, requiring approval from Cigna before a medication may be covered or adding a quantity limit to a medication.

When a medication changes tiers or is no longer covered, you may pay a different amount to fill it. It's important to know that when we make a change that affects the coverage of a medication you're taking, we let you know before it happens so you have time to talk with your doctor.

### Why doesn't my plan cover certain medications?

To help lower your overall health care costs, your plan doesn't cover certain high-cost brand medications because they have lower-cost, covered alternatives which are used to treat the same condition. Meaning, the alternative works the same or similar to the non-covered medication. If you're taking a medication that your plan doesn't cover and your doctor feels an alternative isn't right for you, he or she can ask Cigna to consider approving coverage.

Your plan may also exclude certain medications or products from coverage. This is known as a "plan (or benefit) exclusion." For example, your plan excludes medications that aren't approved by the U.S. Food and Drug Administration (FDA).

### How do you decide which medications are covered?

The Cigna Prescription Drug List is developed with the help of Cigna's Pharmacy and Therapeutics (P&T) Committee, which is a group of practicing doctors and pharmacists, most of whom work outside of Cigna. The group meets regularly to review medical evidence and information provided by federal agencies, drug manufacturers, medical professional associations, national organizations and peer-reviewed journals about the safety and effectiveness of medications that are newly approved by the FDA and medications already on the market. The Cigna Pharmacy Management<sup>®</sup> Business Decision Team then looks at the results of the P&T Committee's clinical review, as well as the medication's overall value and other factors before adding it to, or removing it from, the drug list.

### Which medications are covered under the health care reform law?

The Patient Protection and Affordable Care Act (PPACA), commonly referred to as "health care reform," was signed into law on March 23, 2010. Under this law, certain preventive medications (including some over-the-counter products) may be available to you at no cost-share (\$0), depending on your plan. Log in to the **myCigna** App or website, or check your plan materials, to learn more about how your plan covers preventive medications. You can also view the PPACA No Cost-Share Preventive Medications drug list at **Cigna.com/druglist**.

For more information about health care reform, go to **www.informedonreform.com** or **Cigna.com**.

### Are medications newly approved by the FDA covered on my drug list?

Newly approved medications may not be covered on your drug list for the first six months after they receive FDA approval. These include, but are not limited to, medications, medical supplies and/or devices covered under standard pharmacy benefit plans. We review all newly approved medications to see if they should be covered – and if so, on what tier. If your doctor feels a currently covered medication isn't

## Prescription drug list FAQs (cont)

right for you, he or she can ask Cigna to consider approving coverage of the newly approved medication.

### How can I find out how much I'll pay for a specific medication?

Prescription prices can vary by pharmacy. Before you fill your prescription, compare your costs online. Log in to the **myCigna** App or website and click on "Price a Medication" to see how much your medication may cost you at the different pharmacies in your plan's network. You can also see if there are lower-cost alternatives available.<sup>3</sup>

### How can I save money on my prescription medications?

You may be able to save money by switching to a medication that's on a lower tier (ex. generic or preferred brand) or by filling a 90-day supply, if your plan allows. You should talk with your doctor to find out if one of these options may work for you.

### Do generics work the same as brand name medications?

Yes. A generic medication works in the same way and provides the same clinical benefit as its brand name version.<sup>4</sup> Generic and brand name medications have the same active ingredients, strength/dosage form, effectiveness, quality and safety.

Generics typically cost much less than brand name medications – in some cases, up to 85% less.<sup>4</sup> Just because generics cost less than brands, it doesn't mean they're lower-quality medications.

### Why do certain medications need approval before my plan will cover them?

The review process helps to make sure you're receiving coverage for the right medication, at the right cost, in the right amount and for the right situation.

### My medication needs prior approval. How do I get it?

Ask your doctor's office to contact Cigna so we can start the coverage review process. They know how the review process works and will take care of everything for you. In case the office asks, they can download a request form from Cigna's provider portal at **cignaforhcp.com**.

### What happens if I try to fill a prescription that needs approval but I don't get approval ahead of time?

When your pharmacist tries to fill your prescription, he or she will see that the medication needs prior approval. Because you didn't get approval ahead of time, your pharmacist won't be able to fill it.

### What happens if I try to fill a prescription that has a quantity limit?

Your pharmacist will only fill the amount your plan covers. If you want to fill more than what's allowed, your doctor's office will need to contact Cigna to request approval for coverage.

### Can I fill my prescriptions by mail?

Yes, as long as your plan offers home delivery.<sup>5</sup>

- If you're taking a medication on a regular basis to treat an ongoing health condition like diabetes, high blood pressure, high cholesterol or asthma, you can order up to a 90-day supply through our home delivery pharmacy. Avoid the pharmacy lines and get your medication shipped to your home – **at no extra cost**. You can also manage your medications online and talk with a pharmacist 24/7 if you have questions. To get started using home delivery, call **800.835.3784**.

## Prescription drug list FAQs (cont)

- › If you're taking a specialty medication to treat a complex medical condition like multiple sclerosis, hepatitis C and rheumatoid arthritis, you can fill your prescription through Accredo, a Cigna specialty pharmacy. Accredo will ship your medication to your home (or location of your choice).<sup>6</sup> Their team of specialty trained pharmacists and nurses can also help you manage your complex medical condition – **at no extra cost**. To get started using Accredo, call **877.826.7657**, Monday–Friday, 7:00 am–10:00 pm CST and Saturdays, 7:00 am–4:00 pm CST. **Be sure to call Accredo about two weeks before your next refill so they have time to get a new prescription from your doctor's office.** To learn more about Accredo, go to **Cigna.com/specialty**.

### **Where can I find more information about my pharmacy benefits?**

You can use the online tools and resources on the **myCigna** App or website to help you better understand your pharmacy coverage. You can find out how much your medication costs, see which medications your plan covers, find an in-network pharmacy, ask a pharmacist a question and see your pharmacy claims and coverage details. You can also manage your home delivery prescription orders.<sup>5</sup>

## Exclusions and limitations

Health benefit plans vary, but in general to be eligible for coverage a drug must be approved by the Food and Drug Administration (FDA), prescribed by a health care professional, purchased from a licensed pharmacy and be medically necessary. If your plan provides coverage for certain preventive prescription drugs with no cost-share, you may be required to use an in-network pharmacy to fill the prescription. If you use a pharmacy that does not participate in your plan's network, the prescription may not be covered. Certain drugs may require prior authorization, or be subject to step therapy, quantity limits or other utilization management requirements.

Plans generally do not provide coverage for the following under the pharmacy benefit, except as required by state or federal law, or by the terms of your specific plan:<sup>7</sup>

- › over-the-counter (OTC) medicines (those that do not require a prescription) except insulin unless state or federal law requires coverage of such medicines;
- › prescription medications or supplies for which there is a prescription or OTC therapeutic equivalent or therapeutic alternative;
- › doctor-administered injectable medications covered under the Plan's medical benefit, unless otherwise covered under the Plan's prescription drug list or approved by Cigna;
- › implantable contraceptive devices covered under the Plan's medical benefit;
- › medications that are not medically necessary;
- › experimental or investigational medications, including FDA-approved medications used for purposes other than those approved by the FDA unless the medication is recognized for the treatment of the particular indication;
- › medications that are not approved by the Food & Drug Administration (FDA);
- › prescription and non-prescription devices, supplies, and appliances other than those supplies specifically listed as covered;
- › medications used for fertility, sexual dysfunction, cosmetic purposes, weight loss, smoking cessation, or athletic enhancement;
- › prescription vitamins (other than prenatal vitamins) or dietary supplements unless state or federal law requires coverage of such products;
- › immunization agents, biological products for allergy immunization, biological sera, blood, blood plasma and other blood products or fractions and medications used for travel prophylaxis;
- › replacement of prescription medications and related supplies due to loss or theft;
- › medications which are to be taken by or administered to a covered person while they are a patient in a licensed hospital, skilled nursing facility, rest home or similar institution which operates on its premises or allows to be operated on its premises a facility for dispensing pharmaceuticals;
- › prescriptions more than one year from the date of issue; or
- › coverage for prescription medication products for the amount dispensed (days' supply) which is more than the applicable supply limit, or is less than any applicable supply minimum set forth in The Schedule, or which is more than the quantity limit(s) or dosage limit(s) set by the P&T Committee.
- › more than one prescription order or refill for a given prescription supply period for the same prescription medication product prescribed by one or more doctors and dispensed by one or more pharmacies.
- › prescription medication products dispensed outside the jurisdiction of the United States, except as required for emergency or urgent care treatment.

In addition to the plan's standard pharmacy exclusions, certain new FDA-approved medication products (including, but not limited to, medications, medical supplies or devices that are covered under standard pharmacy benefit plans) may not be covered for the first six months of market availability unless approved by Cigna as medically necessary.

**Cigna reserves the right to make changes to the Drug List without notice. Your plan may cover additional medications; please refer to your enrollment materials for details. Cigna does not take responsibility for any medication decisions made by the doctor or pharmacist. Cigna may receive payments from manufacturers of certain preferred brand medications, and in limited instances, certain non-preferred brand medications, that may or may not be shared with your plan depending on its arrangement with Cigna. Depending upon plan design, market conditions, the extent to which manufacturer payments are shared with your plan and other factors as of the date of service, the preferred brand medication may or may not represent the lowest-cost brand medication within its class for you and/or your plan.**

1. State laws in **Texas** and **Louisiana** may require your plan to cover your medication at your current benefit level until your plan renews. This means that if your medication is taken off the drug list, is moved to a higher cost-share tier or needs approval from Cigna before your plan will cover it, these changes may not begin until your plan's renewal date. To find out if these state laws apply to your plan, please call Customer Service using the number on your Cigna ID card.
2. State law in **Illinois** may require your plan to cover your medications at your current benefit level until your plan renews. This means that if you currently have approval through a review process for your plan to cover your medication, the drug list change(s) listed here may not affect you until your plan renewal date. If you don't currently have approval through a coverage review process, you may continue to receive coverage at your current benefit level if your doctor requests it. To find out if this state law applies to your plan, please call Customer Service using the number on your Cigna ID card.
3. Prices shown on myCigna are not guaranteed and coverage is subject to your plan terms and conditions. Visit myCigna for more information.
4. U.S. Food and Drug Administration (FDA) website, "Generic Drug Facts." Last updated 06/01/18.
5. Not all plans offer home delivery and Accredo as covered pharmacy options. Log in to the myCigna App or website, or check your plan materials, to learn more about the pharmacies in your plan's network.
6. As allowable by law. For medications administered by a health care provider, Accredo will ship the medication directly to your doctor's office.
7. Costs and complete details of the plan's prescription drug coverage are set forth in the plan documents. If there are any differences between the information provided here and the plan documents, the information in the plan documents takes complete precedence.

Product availability may vary by location and plan type and is subject to change. All group health insurance policies and health benefit plans contain exclusions and limitations. For costs and details of coverage, review your plan documents or contact a Cigna representative.

# DISCRIMINATION IS AGAINST THE LAW

## Medical coverage

Cigna complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex. Cigna does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

Cigna:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as:
  - Qualified sign language interpreters
  - Written information in other formats (large print, audio, accessible electronic formats, other formats)
- Provides free language services to people whose primary language is not English, such as:
  - Qualified interpreters
  - Information written in other languages

If you need these services, contact customer service at the toll-free number shown on your ID card, and ask a Customer Service Associate for assistance.

If you believe that Cigna has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance by sending an email to [ACAGrievance@Cigna.com](mailto:ACAGrievance@Cigna.com) or by writing to the following address:

Cigna  
Nondiscrimination Complaint Coordinator  
PO Box 188016  
Chattanooga, TN 37422

If you need assistance filing a written grievance, please call the number on the back of your ID card or send an email to [ACAGrievance@Cigna.com](mailto:ACAGrievance@Cigna.com). You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services  
200 Independence Avenue, SW  
Room 509F, HHH Building  
Washington, DC 20201  
1.800.368.1019, 800.537.7697 (TDD)  
Complaint forms are available at  
<http://www.hhs.gov/ocr/office/file/index.html>.
