## 1 | About this Plan

#### Who can enroll?

You can enroll in this plan if you are in one of these Medicaid categories:

Qualified Medicare Beneficiary (QMB):

While QMB status provides you with Medicaid coverage of your Medicare costshare, you are not eligible for full Medicaid benefits. This means that Medicaid pays only your Part A and Part B premiums, deductibles and cost-share amounts. Medicaid does not cover your Part D prescription drug copays nor does it pay for services that Medicare Part A or Part B does not cover.

#### **Qualified Medicare Beneficiary Plus**

(QMB+): As a QMB+, not only is your Medicare cost-share covered by Medicaid, but you also are eligible for full Medicaid benefits. Medicaid pays your Part A and Part B premiums, deductibles and cost-share amounts. This means you pay your Part D prescription drug copays—and nothing else.

#### Specified Low-Income Medicare

**Beneficiary (SLMB):** You do not have full Medicaid benefits as an SLMB. Medicaid pays only your Part B premium—not any cost-share amounts; however, you may find that some services do not require a customer cost-share.

#### Specified Low-Income Medicare Beneficiary

**(SLMB+):** As a SLMB+, you are eligible for full Medicaid benefits. In addition, Medicaid pays your Part B premium. Further, additional limited assistance from your state Medicaid agency may be available to help you pay any Medicare cost-share amounts. When both Medicare and Medicaid provide coverage for a service you receive, your cost-share is typically 0%; however, when Medicaid does not provide coverage for such service or other benefit, you may be required to pay a cost-share amount.

**Qualifying Individual (QI):** You do not have full Medicaid benefits as a QI, so Medicaid pays only your Part B premium—not any cost-share amounts; however, you may find that some services do not require a customer cost-share.

**Qualified Disabled and Working Individual** (**QDWI**): As a QDWI, you do not have full Medicaid benefits. Medicaid pays only your Part A premium. While Medicaid does not pay any cost-share amounts, you may find that some services do not require a customer cost-share.

Full Benefits Dual Eligible (FBDE): You are eligible for full Medicaid benefits as an FBDE; further, Medicaid may provide limited assistance with Medicare costshare amounts. When both Medicare and Medicaid provide coverage for a service you receive, your cost-share is typically 0%; however, when Medicaid does not provide coverage for such service or other benefit, you may be required to pay a cost-share amount. If your category of Medicaid eligibility changes, your cost-share may also increase or decrease. You must recertify your Medicaid enrollment to continue to receive your Medicare coverage.

## Which doctors, hospitals and pharmacies can I use?

**Cigna TotalCare (HMO D-SNP)** has a network of doctors, hospitals, pharmacies and other providers. If you use the providers that are not in our network, the plan may not pay for these services.

You must generally use network pharmacies to fill your prescriptions for covered Part D drugs.

You can see our plan's Provider and Pharmacy Directory at our website, CignaMedicare.com.

#### What do we cover?

Like all Medicare health plans, we cover everything that Original Medicare covers—and more.

- > Our customers get all of the benefits covered by Original Medicare.
- > Our customers also get more than what is covered by Original Medicare. Some of the extra benefits are outlined in this *Summary of Benefits*.

We cover Part D drugs. In addition, we cover Part B drugs such as chemotherapy and some drugs administered by your provider.

- > You can see the plan's complete Comprehensive Prescription Drug List which lists the Part D prescription drugs along with any restrictions on our website, **CignaMedicare.com**.
- > Or, call us and we will send you a copy of the plan's *Comprehensive Prescription Drug List*.

## 4 | Prescription Drug Benefits

#### Medicare Part D Drugs Initial Coverage

Most of our members qualify for and are already getting *Extra Help* from Medicare to pay for their prescription drug plan costs.

Medicare provides *Extra Help* to pay prescription drug costs for people who have limited income and resources. Resources include your savings and stocks, but not your home or car. Those who qualify get help paying for any Medicare drug plan's monthly premium, yearly deductible, and prescription copayments. This *Extra Help* also counts toward your out-of-pocket costs.

People with limited income and resources may qualify for *Extra Help*. Some people automatically qualify for *Extra Help* and don't need to apply. Medicare mails a letter to people who automatically qualify for *Extra Help*.

If you have questions about Extra Help, call:

- > Call your local Social Security office, or
- Call Social Security at 1-800-772-1213. TTY users should call 1-800-325-0778.

### For generic drugs (including brand drugs treated as generic):

- > 25% cost-share if you do not receive *Extra Help*, or
- \$0 copay / \$1.35 copay / \$3.95 copay / 15% cost-share depending on your level of *Extra Help*

#### For all other drugs:

- > 25% cost-share if you do not receive *Extra Help*, or
- \$0 copay / \$4.00 copay / \$9.85 copay / 15% cost-share depending on your level of Extra Help

#### Coverage Gap

Because most of our members get *Extra Help* with their prescription drug costs, the Coverage Gap Stage does not apply to most members. If you receive *Extra Help*, this payment stage does not apply to you.

Most Medicare prescription drug plans have a Coverage Gap (also called the Donut Hole). This means that there is a temporary change in what you will pay for your drugs. The Coverage Gap begins after your total yearly prescription drug cost (including what our plan has paid and what you have paid) reaches **\$4,430**.

After you enter the Coverage Gap, you pay **25%** of the plan's cost for covered brand name drugs and **25%** of the plan's cost for covered generic drugs until your costs total **\$7,050**, which is the end of the Coverage Gap.

#### **Catastrophic Coverage**

You qualify for the Catastrophic Coverage Stage when your out-of-pocket costs have reached the **\$7,050** limit for the calendar year. Once you are in the Catastrophic Coverage Stage, you will stay in this payment stage until the end of the calendar year.

During this stage, your share of the cost for a covered drug will be either:

- **> \$0**; or
- > A coinsurance or a copayment, whichever is the larger amount:
  - Coinsurance of 5% of the cost of the drug, or
  - \$3.95 for a generic drug or a drug that is treated like a generic and \$9.85 for all other drugs.
  - Our plan pays the rest of the cost.
