

Cigna Healthcare 2025 Formulary Standard List of Covered Drugs or “Drug List”

Cigna Rx Medicare (PDP)

Cigna True Choice Medicare (PPO)

Please read: This document contains information about the drugs we cover in this plan.

This formulary was updated 12/01/2025. For more recent information or other questions, please contact Cigna Healthcare Customer Service. Contact information can be found on the back cover of this document. The formulary, pharmacy network, and/or provider network may change at any time. You will receive notice when necessary. Cigna Healthcare is contracted with Medicare for PDP plans, HMO and PPO plans in select states, and with select State Medicaid programs.

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this formulary (formulary) refers to “we,” “us”, or “our,” it means Cigna Healthcare. When it refers to “plan” or “our plan,” it means Cigna Rx Medicare (PDP) or Cigna True Choice Medicare (PPO).

This document includes a list of the drugs (formulary) for our plan which is current as of 12/01/2025. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2026, and from time to time during the year.

What is the Cigna Healthcare Comprehensive Formulary?

In this document, we use the terms Drug List and formulary to mean the same thing. A formulary is a list of covered drugs selected by Cigna Healthcare in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. Cigna Healthcare will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a Cigna Healthcare network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage (EOC).

Can the Formulary change?

Most changes in drug coverage happen on January 1, but we may add or remove drugs on the formulary during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow the Medicare rules in making these changes. Updates to the formulary are posted monthly to our website. You can locate the address on the back cover of this document.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

- **Immediate substitutions of certain new versions of brand name drugs and original biological products.** We may immediately remove a drug from our formulary if we are replacing it with a certain new version of that drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. When we add a new version of a drug to our formulary, we may decide to keep the brand name drug or original biological product on our formulary, but immediately move it to a different cost-sharing tier or add new restrictions.

We can make these immediate changes only if we are adding a new generic version of a brand name drug or adding certain new biosimilar versions of an original biological product, that was already on the formulary (for example, adding an interchangeable biosimilar that can be substituted for an original biological product by a pharmacy without a new prescription).

If you are currently taking the brand name drug or original biological product, we may not tell you in advance before we make an immediate change, but we will later provide you with information about the specific change(s) we have made.

If we make such a change, you or your prescriber can ask us to make an exception and continue to cover for you the drug that is being changed. For more information, see the section below titled "How do I request an exception to Cigna Healthcare Drug List?"

Some of these drug types may be new to you. For more information, see the section below titled “What are original biological products and how are they related to biosimilars?”

- **Drugs removed from the market.** If a drug is withdrawn from sale by the manufacturer or the Food and Drug Administration (FDA) determines to be withdrawn for safety or effectiveness reasons, we may immediately remove the drug from our drug list and later provide notice to members who take the drug.
- **Other changes.** We may make other changes that affect customers currently taking a drug. For instance, we may remove a brand name drug from the formulary when adding a generic equivalent or remove an original biological product when adding a biosimilar. We may also apply new restrictions to the brand name drug or original biological product or move it to a different cost-sharing tier, or both. We may make changes based on new clinical guidelines and/or studies. If we remove drugs from our drug list, add prior authorization, quantity limits and/or step therapy restrictions on a drug or move a drug to a higher cost-sharing tier, we must notify affected customers of the change at least 30 days before the change becomes effective. Alternatively, when a customer requests a refill of the drug, they may receive a 30-day supply of the drug and notice of the change.

If we make these other changes, you or your prescriber can ask us to make an exception for you and continue to cover the drug you have been taking. The notice we provide you will also include information on how to request an exception, and you can also find information in the section below entitled “How do I request an exception to the Cigna Healthcare Drug List?”

Changes that will not affect you if you are currently taking the drug.

Generally, if you are taking a drug on our 2025 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2025 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Formulary for the new benefit year for any changes to drugs.

The enclosed drug list is current as of 12/01/2025. To get updated information about the drugs covered by Cigna Healthcare please contact us. Our contact information appears on the back cover pages. If there are significant changes made to the printed drug list within the covered year, you

may be notified by mail identifying the changes. Drug lists located on our website are reviewed and updated on a monthly basis.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

- **Medical Condition**

The formulary begins on page 11. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, "CARDIOVASCULAR, HYPERTENSION / LIPIDS". If you know what your drug is used for, look for the category name in the list that begins on 11. Then look under the category name for your drug.

- **Covered Drug Index**

If you are not sure what category to look under, you should look for your drug in the Covered Drug Index that begins after the List of Covered Drugs. The Covered Drug Index provides an alphabetical list of all the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Covered Drug Index and find the name of your drug in the drug name column of the list.

What are generic drugs?

Cigna Healthcare covers both brand name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand name drug. Generally, generic drugs work just as well as and usually cost less than brand name drugs. There are generic drug substitutes available for many brand name drugs. Generic drugs usually can be substituted for the brand name drug at the pharmacy without needing a new prescription, depending on state laws.

What are original biological products and how are they related to biosimilars?

On the formulary, when we refer to drugs, this could mean a drug or a biological product. Biological products are drugs that are more complex than typical drugs. Since biological products are more complex than typical drugs, instead of having a generic form, they have alternatives that are called biosimilars. Generally, biosimilars work just as well as the original biological product and may cost less. There are biosimilar alternatives for some original biological products. Some biosimilars are interchangeable biosimilars and, depending on state laws, may be substituted for the original biological product at the pharmacy without needing a new prescription, just like generic drugs can be substituted for brand name drugs.

- For discussion of drug types, please see the Evidence of Coverage, Chapter 5 for Cigna True Choice Medicare plans and Chapter 3 for Cigna Rx Medicare PDP plans, Section 3.1, “The ‘Drug List’ tells which Part D drugs are covered.”

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization:** Cigna Healthcare requires you or your prescriber to get prior authorization for certain drugs. This means that you will need to get approval from Cigna Healthcare before you fill these prescriptions. If you don’t get approval, Cigna Healthcare may not cover the drug.
- **Quantity Limits:** For certain drugs, Cigna Healthcare limits the amount of the drug that Cigna Healthcare will cover. For example, Cigna Healthcare allows for 1 tablet per day for atorvastatin 40mg. This applies to a standard one-month supply (for a total quantity of 30 per 30 days) or three-month supply (for a total quantity of 90 per 90 days).
- **Step Therapy:** In some cases, Cigna Healthcare requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, Cigna Healthcare may not cover Drug B unless you try Drug A first. If Drug A does not work for you, Cigna Healthcare will then cover Drug B.
- **Non-Extended Days’ Supply:** For certain drugs, Cigna Healthcare limits the amount of the drug that Cigna Healthcare will cover to only a 30-day supply or less, at one time. For example, customers who have not had any recent fill of opioid pain medications within the past 108 days (referred to as “opioid naïve”) are limited to a maximum of 7 days’ supply of opioid pain medication. Customers who have received a recent fill of an opioid pain medication (not opioid naïve) are limited to up to a month’s supply of that medication at one time. Other high- cost drugs may be subject to a non-extended day supply restriction, as well.

You can find out if your drug has any additional requirements or limits by looking in the drug list that begins on page 11. You can also get more information about the restrictions applied to specific covered drugs by visiting our website. We have posted online documents that explain our prior authorization and step therapy restrictions. You may also ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask Cigna Healthcare to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the Cigna Healthcare drug list?” on the next page for information about how to request an exception.

Options for Maintenance Medications

Taking the medications prescribed by your doctor (or other prescriber) is important to your health.

We are committed to helping you control your chronic conditions by making it easy for you to receive your maintenance medications. There are several ways we can work together to accomplish this goal:

- Talk with your prescriber about whether a 90-day supply of your ongoing, stable medications may be appropriate. Taking these medications every day as prescribed is important for your overall health, and getting 90-day prescriptions of these medications can help ensure that you do not miss a dose.
- You can receive a 90-day supply at most retail pharmacies or through one of our mail-order pharmacies.
- Talk to your pharmacist if you are experiencing any new challenges with your maintenance medications.

How can I use my prescription drug coverage to save money on my medications?

There may be opportunities for you to save money on your medications using your Cigna Healthcare coverage.

- Ask your doctor (or other prescriber) if there are any lower-cost generic alternatives available for any of your current medications.
- Some plans may offer a \$0 copay for Tier 1 and Tier 2 generic drugs filled at a preferred retail and/or mail-order pharmacies. Refer to your Evidence of Coverage (EOC) Snapshot for your plan's specific cost-sharing amounts.
- Explore whether the 'CMS Extra Help' program may offer additional financial support for your medications.
- If your medication is not covered in the Cigna Healthcare drug list, talk with your doctor about alternative medications which are covered on the drug list.

What if my drug is not on the Drug List?

If your drug is not included in this drug list, you should first contact Customer Service and ask if your drug is covered.

If you learn that Cigna Healthcare does not cover your drug, you have two options:

- You can ask Customer Service for a list of similar drugs that are covered by Cigna Healthcare. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by Cigna Healthcare.
- You can ask Cigna Healthcare to make an exception and cover your drug. See next section for information about how to request an exception.

How do I request an exception to the Cigna Healthcare Drug List?

You can ask Cigna Healthcare to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make.

- You can ask us to cover a drug even if it is not on our drug list. If approved, this drug will be covered at a pre-determined cost-sharing level, and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to waive coverage restrictions including prior authorization, step therapy, or a quantity limit on your drug. For example, for certain drugs, Cigna Healthcare limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.
- You can ask us to cover a formulary drug at a lower cost-sharing level unless the drug is on the specialty tier. If approved, this would lower the amount you must pay for your drug. This applies to the following circumstances:
 - If the drug you are taking is a brand name drug, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains either brand or generic alternatives for treating your condition.
 - If the drug you're taking is a generic drug, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains either brand or generic alternatives for treating your condition.
 - If the drug you're taking is a biological product, you can ask us to cover your drug at the cost-sharing amount that applies to the lowest tier that contains biological product alternatives for treating your condition.

Please note, if we grant your request to cover a drug that is not on our drug list, you may not ask us to provide this drug at a lower cost sharing tier.

Generally, Cigna Healthcare will only approve your request for an exception if the alternative drug is included on the plan's formulary, the lower cost-sharing drug or applying the restriction would not be as effective for you and/or would cause you to have adverse effects. You or your prescriber should contact us to ask for a formulary exception, including an exception to a coverage restriction. **When you request an exception, your prescriber will need to explain the medical reasons why you need the exception.**

Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) decision if you believe, and we agree, that your health could be seriously harmed by waiting up to 72 hours for a decision. If we agree, or if your prescriber asks for a fast decision, we must give you a decision no later than 24 hours after we get your prescriber's supporting statement.

What can I do if my drug is not on the formulary or has a restriction?

As a new or existing customer in our plan you may be taking drugs that are not on our drug list. Or, you may be taking a drug that is on our formulary but has a coverage restriction, such as prior authorization. You should talk to your prescriber about requesting a coverage decision to show that you meet the criteria for approval, switching to an alternative drug that we cover, or requesting a drug list exception so that we will cover the drug you take. While you and your doctor determine the right course of action for you, we may cover your drug up to a 30-day supply, in certain cases during the first 90 days you are a customer of our plan.

For each of your drugs that is not on our drug list or has a coverage restriction, we will cover a temporary 30-day supply. If your prescription is written for fewer days, we'll allow refills to provide up to a maximum 30-day supply of medication. If coverage is not approved, after your first 30-day supply, we will not pay for these drugs without a drug list exception, even if you have been a customer of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our drug list or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a drug list exception.

To accommodate unexpected transitions of our customers that do not leave time for advanced planning, such as level-of-care changes due to discharge from a hospital to a nursing facility or to a home, Cigna Healthcare will allow a onetime 31-day supply (unless the prescription is written for fewer days).

Cigna Healthcare's Drug List

The drug list that begins on page 11 provides coverage information about the drugs covered by Cigna Healthcare. If you have trouble finding your drug in the list, turn to the Covered Drug Index that begins after the list of covered drugs.

The first column of the chart lists the drug name. Brand name drugs are capitalized (e.g., TRELEGY ELLIPTA) and generic drugs are listed in lower-case italics (e.g., atorvastatin).

The information in the Requirements/Limits column tells you if Cigna Healthcare has any special requirements for coverage of your drug.

We or your prescriber provide quantity limits on certain drugs which are indicated with a QL in the Covered Drugs by Category list on page 11 along with the amount dispensed per the days supplied. (For example: atorvastatin 40mg QL 30/30; this means the drug atorvastatin 40mg is limited to 30 tablets per 30 days. For 90-day supplies, this quantity limit would be expanded to 90 tablets per 90 days).

For more information

For more detailed information about your Cigna Healthcare prescription drug coverage, please review your Evidence of Coverage (EOC) and other plan materials.

If you have questions about Cigna Healthcare, please contact us. Our contact information, along with the date we last updated the formulary, appears on the back cover page.

If you have general questions about Medicare prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227) 24 hours a day/ 7 days a week. TTY users should call 1-877-486-2048. Or, visit <http://www.medicare.gov>.

Drug Tier and Cost-Sharing

Cigna Healthcare covers both brand name drugs and generic drugs. The amount you pay for a prescription drug depends on which tier your drug is in. In general, the higher the tier number, the higher your cost for the drug.

If your plan includes additional benefits as noted on the Summary of Benefits or Evidence of Coverage Snapshot, you can find the lists of those covered benefits in the 2025 Formulary Addendum document included in your Benefits Booklet.

For customers receiving Extra Help

Your Low Income Subsidy (LIS) copay level will be based on how the Food and Drug Administration (FDA) classifies certain drugs. Due to this, a generic drug may receive a preferred brand copay, or a preferred brand drug may receive a generic drug copay. Please see your LIS Rider for additional information on these copay levels. Or call Customer Service for further clarification regarding a specific drug.

Drug Tiers

Covered medications are divided into tiers or cost-share levels. Typically, the higher the tier, the higher the price you'll pay to fill the prescription.

Tier 1 – Generic Drugs- This tier includes many commonly prescribed generic drugs and may include other low-cost drugs.

Tier 2 – Preferred Brand Drugs - This tier includes preferred brand-name drugs as well as some high-priced generic named drugs.

Tier 3: Non-Preferred Drugs - This tier includes non-preferred brand-name and non-preferred generic-named drugs.

Tier 4: Specialty Drugs - This tier includes the highest cost brand-name and generic drugs.

List of Abbreviations

*	Opioid medication available as a 7-day supply or less for first time opioid user. For continued use this drug may only be available as a one month supply.
^	This prescription drug has an administrative prior authorization requirement that is not waived. This drug may be covered under different benefits depending on circumstances.
+	This prescription drug is not normally covered in a Medicare Prescription Drug Plan. The amount you pay when you fill a prescription for this drug does not apply to your total drug costs (that is, the amount you pay does not help you qualify for catastrophic coverage). In addition, if you are receiving extra help to pay for your prescriptions, you will not get any extra help to pay for this drug.
B/D PA	This prescription drug has a Part B versus D administrative prior authorization requirement. This drug may be covered under Medicare Part B or D depending on circumstances.
HRM	This high risk medication requires prior authorization
LA	Limited Availability. This prescription may be available only at certain pharmacies. For more information, please call Customer Service.
PA	This drug requires prior authorization.
QL	This drug has quantity limits.
ST	This drug has step therapy requirements.
V	This vaccine is provided at no cost when used based on recommendations by the Centers for Disease Control and Prevention's (CDC) Advisory Committee on Immunization Practices (ACIP).

Covered Drugs By Category

Drug Name	Drug Tier	Requirements/Limits
ANTI - INFECTIVES		
ANTIFUNGAL AGENTS		
<i>amphotericin b injection recon soln 50 mg</i>	1	PA; ^

<i>phenylephrine hcl ophthalmic (eye) drops 10 %, 2.5 %</i>	1	+
RESPIRATORY AND ALLERGY		
ANTIHISTAMINE / ANTIALLERGENIC AGENTS		
<i>cetirizine oral solution 1 mg/ml</i>	1	
CLARINEX-D 12 HOUR ORAL TABLET, ER MULTIPHASE 12 HR 2.5-120 MG	3	QL (60 EA per 30 days)
<i>clemastine oral tablet 2.68 mg</i>	1	
<i>cyproheptadine oral syrup 2 mg/5 ml</i>	1	
<i>cyproheptadine oral tablet 4 mg</i>	1	
<i>desloratadine oral tablet 5 mg</i>	1	QL (30 EA per 30 days)
<i>diphenhydramine hcl injection solution 50 mg/ml</i>	1	
EPINEPHRINE HCL (PF) INJECTION SOLUTION 1 MG/ML (1 ML)	2	+
EPINEPHRINE INJECTION AUTO-INJECTOR 0.15 MG/0.15 ML, 0.3 MG/0.3 ML	1	QL (2 EA per 30 days)
<i>epinephrine injection auto-injector 0.15 mg/0.3 ml</i>	1	QL (2 EA per 30 days)
<i>epinephrine injection solution 1 mg/ml, 1 mg/ml (1 ml)</i>	1	
<i>epinephrine injection syringe 0.1 mg/ml</i>	1	+
HYDROXYZINE HCL ORAL SOLUTION 10 MG/5 ML	1	
<i>hydroxyzine hcl oral tablet 10 mg, 25 mg, 50 mg</i>	1	
<i>hydroxyzine pamoate oral capsule 100 mg, 25 mg, 50 mg</i>	1	
<i>levocetirizine oral solution 2.5 mg/5 ml</i>	1	
<i>levocetirizine oral tablet 5 mg</i>	1	QL (30 EA per 30 days)
<i>promethazine injection solution 25 mg/ml, 50 mg/ml</i>	1	
<i>promethazine oral syrup 6.25 mg/5 ml</i>	1	PA; HRM
<i>promethazine oral tablet 12.5 mg, 25 mg, 50 mg</i>	1	PA; HRM
<i>promethazine rectal suppository 12.5 mg, 25 mg</i>	1	

CAPITALIZED = BRAND NAME DRUG

Lowercase italic = Generic drug

You can find information on what the symbols and abbreviations on this table mean by going to page 10.

Covered Drugs By Category

Drug Name	Drug Tier	Requirements/Limits
<i>promethegan rectal suppository 12.5 mg, 25 mg, 50 mg</i>	1	
PULMONARY AGENTS		
<i>acetylcysteine solution 100 mg/ml (10 %), 200 mg/ml (20 %)</i>	1	B/D PA; ^
ADEMPAS ORAL TABLET 0.5 MG, 1 MG, 1.5 MG, 2 MG, 2.5 MG	4	PA; LA; QL (90 EA per 30 days)
ADVAIR HFA INHALATION HFA AEROSOL INHALER 115-21 MCG/ACTUATION, 230-21 MCG/ACTUATION, 45-21 MCG/ACTUATION	2	QL (12 GM per 30 days)
ALBUTEROL SULFATE INHALATION HFA AEROSOL INHALER 90 MCG/ACTUATION	1	QL (17 GM per 30 days)
<i>albuterol sulfate inhalation hfa aerosol inhaler 90 mcg/actuation (nda020503)</i>	1	QL (13.4 GM per 30 days)
ALBUTEROL SULFATE INHALATION HFA AEROSOL INHALER 90 MCG/ACTUATION (NDA020983)	1	QL (36 GM per 30 days)
<i>albuterol sulfate inhalation solution for nebulization 0.63 mg/3 ml, 1.25 mg/3 ml, 2.5 mg/3 ml (0.083 %), 2.5 mg/0.5 ml, 5 mg/ml</i>	1	B/D PA; ^
<i>albuterol sulfate oral syrup 2 mg/5 ml</i>	1	
<i>albuterol sulfate oral tablet 2 mg, 4 mg</i>	1	
ALYFTREK ORAL TABLET 10-50-125 MG	4	PA; QL (56 EA per 28 days)
ALYFTREK ORAL TABLET 4-20-50 MG	4	PA; QL (84 EA per 28 days)
<i>alyq oral tablet 20 mg</i>	3	PA; ^; QL (60 EA per 30 days)
<i>ambrisentan oral tablet 10 mg, 5 mg</i>	4	PA; LA; QL (30 EA per 30 days)
ANORO ELLIPTA INHALATION BLISTER WITH DEVICE 62.5-25 MCG/ACTUATION	2	QL (60 EA per 30 days)
<i>arformoterol inhalation solution for nebulization 15 mcg/2 ml</i>	3	B/D PA; ^
ARNUITY ELLIPTA INHALATION BLISTER WITH DEVICE 100 MCG/ACTUATION, 200 MCG/ACTUATION, 50 MCG/ACTUATION	2	QL (30 EA per 30 days)
ASMANEX HFA INHALATION HFA AEROSOL INHALER 100 MCG/ACTUATION, 200 MCG/ACTUATION, 50 MCG/ACTUATION	3	ST; QL (13 GM per 30 days)

CAPITALIZED = BRAND NAME DRUG

Lowercase italic = Generic drug
