

COMMITMENT TO QUALITY

Convenient, supportive, responsive and satisfying health services

Commitment to Quality*

Focusing on quality to improve health

We believe quality is critical to protecting and improving your health and well-being, which is why we are committed to:

- Offering **convenient** access to quality health care providers.
- **Supporting** you and your provider to help you stay healthy, or return to health if you become **physically or emotionally** ill.
- Making sure you are **satisfied** with our services.
- Providing **responsive** customer service.

With the help of our **quality management committees**, we maintain standards for service and quality medical and behavioral care from network health care providers. The committees include doctors and other health care providers in our network. They meet regularly to discuss health care trends and how they affect the network health care provider services. They then recommend ways we can improve those services. Here are some of the systems that we have in place to help provide you with access to quality services.

Access to quality health care providers

We monitor the quality of independent providers in our network.

We review each candidate's credentials and practice history before considering him or her for inclusion in our network. Each provider's credentials are reevaluated every three years to be sure **he or she still qualifies for participation.**

*"Commitment to Quality" addresses Cigna medical plan customers who have behavioral health benefits through Cigna Behavioral Health (CBH). Medical plan customers who have behavioral health benefits from other companies should disregard the behavioral references outlined herein.

Finding health care solutions

Need emergency care

immediately? Go directly to any emergency facility or call 911. Emergencies exist when you or your health care provider reasonably feels that medical or behavioral treatment is needed to prevent serious harm to yourself or others. They may include major accidents or illnesses, uncontrolled bleeding, seizure, loss of consciousness, chest pain or shortness of breath, among other things.

Need after-hours care and not sure what to do? Call your provider or an on-call health care practitioner to provide advice or urgent treatment. You can also call our 24-hour Health Information LineSM (HIL) or the number on your benefit card to speak with one of our nurses or a behavioral health coach.

Need urgent care that requires prompt attention? Call your personal provider and request to be seen within 24 to 48 hours, or visit an urgent care center or convenience care clinic for symptomatic illnesses and infections.

Need symptomatic regular and routine care? Schedule a visit so that you're seen within seven to 14 days, or within the time frame specified by your treating provider. You can also find and select a treatment provider using our online directories of medical or behavioral treatment providers.

Need preventive screenings and a physical? Schedule a visit so that you're seen within 30 days.

Need to transition from pediatric care to adult care? Ask your pediatrician for a recommendation or call our customer service to help you select an adult primary care practitioner or adult behavioral health provider.

Helping you stay healthy

We pay attention to how well health care providers in our network meet your preventive care needs. We regularly collect data from network doctors to find out if customers are taking advantage of covered preventive care services. We regularly provide information to you about our wellness screening and preventive care programs.

For those individuals with a medical problem that may benefit from behavioral care, we provide integration of services with continuity and coordination of care between health care providers and settings.

Making sure you are satisfied

One way to offer quality customer service is to make sure you have the chance to give us feedback. Here are two ways we ask for your views.

- › Several times a year, we randomly survey our customers and providers to ask how we are doing. We use this information to help us improve our services.
- › Our customer service representatives are available to answer your questions and address your concerns, complaints or suggestions. Just call us at the toll-free number on your health care ID card.

Responsive customer service

We need to hear from you, but you also need to hear from us. Here are just a few of the ways we provide you with information about your health plan and how it works.

- › Our **websites** have resources such as online health care provider and facility directories, and useful tools to help you get the most from your health plan.
- › We offer an interactive voice response system available

24/7, and for more complex issues, there are call center staff available to assist.

- › Clinical calls can be transferred to a nurse on the HIL for medical, or to a behavioral health advocate for Cigna Behavioral Health (CBH) customers.
- › You can ask customer service for help getting or giving written or spoken information in your preferred language. In addition, Cigna uses TDD/TTY-type services to communicate with hearing-impaired customers.

Patient safety resources

Cigna encourages practices that can help ensure your safety as a patient, and we offer a variety of tools and services to help you make smart, safe decisions about your health.

- › Our **Well Informed** program alerts you and your provider to possible dangerous gaps in care, such as missing preventive care screenings or delays in filling your prescriptions.
- › You can find **quality and cost ratings** on hospital care, and find practitioners, specialists and hospitals through our online provider directory. In addition, **myCigna.com** compares quality and cost ratings of doctors and specialists in our network and indicates which hospitals are deemed "Centers of Excellence."

- › As we continue to improve and align with new technology, our online options for your **health assessment** continue to expand. The health assessment offers the ability to learn about the top risk factors that could hurt your health, and it can direct you to resources and support to help you reduce these risks. Online options are available in English or Spanish.
- › Our CBH behavioral website offers an online assessment that can help you to determine when behavioral care may be needed.

We also support and encourage you to follow these **“SPEAK UP”** guidelines and reminders, offered by the Joint Commission on Accreditation of Healthcare Organizations, to help ensure you are an active participant in your health care.

- S** Speak up if you have questions or concerns – don’t hesitate to talk with your doctor.
- P** Pay attention to the care you are receiving.
- E** Educate yourself about your diagnosis, medical tests and treatment plan.
- A** Ask a trusted family member or friend to be your health care advocate.
- K** Know the medications you take and why you take them.
- U** Use a health care organization that has undergone a rigorous onsite evaluation by an independent accrediting agency.
- P** Participate in all decisions about your treatment.

Quality Outcomes Measurement

Cigna measures the effectiveness of our program activities in a variety of ways.

- › External approval of our medical and behavioral quality programs through ongoing accreditation by the **National Committee for Quality Assurance (NCQA)**, a not-for-profit organization dedicated to measuring the quality of America’s health care. Cigna has a strong history with the NCQA process.
- › Cigna’s disease management, wellness and health promotion programs, medical and behavioral screening, and care coordination services are included in the NCQA accreditation process.
- › Accreditation by URAC, an independent, not-for-profit organization whose mission is to ensure consistent quality of care for customers of Cigna’s Medical Case Management, Utilization Management and Pharmacy Benefit Management programs.
- › Utilization of the NCQA **Healthcare Effectiveness Data and Information Set (HEDIS®)**,* a tool used by more than 90% of America’s health plans to measure performance on important levels of care and service. The tool is designed to compare our health improvement outcomes with industry standards established by the NCQA. In addition to gauging performance, we are also able to look for opportunities for quality improvement. *(See additional information on the next page.)*
- › Engagement in the Centers of Medicare & Medicaid Service (CMS) Quality Rating System (QRS) process for our Exchange customers through measurement of QRS clinical measure data and through the facilitation of a Qualified Health Plan enrollee survey.
- › Measurement of the satisfaction of our medical customers annually by utilizing the **Consumer Assessment of Healthcare Providers and Systems (CAHPS®)**** survey, a public/private initiative that develops standardized surveys of customers’ experiences with outpatient and facility-level care, and implementation of appropriate actions to improve customer experience. *(See additional information on the next page.)*
- › **Annual evaluation of behavioral customer experience** with the care and services received through Cigna Behavioral Health. This annual survey helps us identify opportunities for improvement based on your feedback.

* HEDIS (Healthcare Effectiveness Data and Information Set) is a registered trademark of the National Committee for Quality Assurance (NCQA).

** CAHPS (Consumer Assessment of Healthcare Providers and System) is a registered trademark of the Agency for Healthcare Research and Quality (AHRQ).

HEDIS/QRS – measurements of clinical success

Cigna uses HEDIS/QRS clinical metrics to measure the results of many clinical interventions. Annually, we measure and report clinical effectiveness results for our medical plans, and submit these results to NCQA/CMS to be included in developing national benchmark data. Our strong results demonstrate our success in supporting quality care for our customers.

With your help over the last several years, we have seen an increase in the number of customers having important preventive care screenings and provider follow-ups.

Initiatives by Quality program staff are actively pursued to promote improved health, well-being and a sense of security. These initiatives include, but are not limited to, HEDIS measures: Diabetes and hypertension management, breast, cervical and colon cancer screenings, childhood immunizations, depression, and alcohol and other drug use. We promote preventive care through telephone and digital outreach, web and social media campaigns and mailings to people who are identified through claims data as potentially not having had recommended screenings, vaccines or physician follow-ups. We partner with your provider, community organizations and select employers to offer educational opportunities.

To learn more about our Quality Management Program or to request a report on our progress in meeting our goals, call customer service at the toll-free number on your ID card.

CAHPS – medical customer satisfaction measurements of success

Cigna is committed to promoting quality service. We participate in the *Member Satisfaction Survey* to obtain your feedback on how we are doing. This annual survey measures performance in key areas of care and service delivery.

Cigna attempts to maintain and improve results each year by taking action on opportunities identified from your feedback. For example, we made information easier to obtain, more helpful and understandable on **myCigna.com**. We launched Coach by Cigna™ that puts health, diet and fitness programs in the palm of your hand. The app features instructional videos and support from health coaches, and the tools to help you personalize your health goals, track progress and stay motivated for achieving better health and a sense of well-being.

Our Welcome Me Program provides email and direct mailings to you throughout the year to help you make the best use of your benefits in an affordable way. We will also remind you of ways to engage in Cigna's clinical programs.

We also offer Cigna One Guide®, a personalized and proactive digital and telephone service experience designed to help you achieve your most important goals. The One Guide service can help you save money and stay healthy by removing barriers, and increasing your confidence through active education and guidance.

You told us you want increased access to care and service. We improved access to customer service by opening call centers 24 hours a day, seven days a week. You can now use web-enabled mobile phones to get immediate answers in both English and Spanish that are customized to your health plan benefits through the **myCigna™ App** or on **myCigna.com**. We also actively work to increase our network of qualified health care providers and convenience care clinics to make sure you can get needed care quickly.

Chronic Condition Management

Our Chronic Condition Management Program offers valuable, confidential support for you and your covered family members with specific medical conditions. Educational materials help you learn more about your health condition, to make educated decisions about treatment options. In addition, we share information with your provider when appropriate.

How it works

Our Chronic Condition Management Program includes a number of services designed to help you better understand and manage your condition. We work with you to create a plan that helps you successfully reach your health goals. We do this through one-to-one coaching and online self-guided support tools. You choose a path that is right for you.

Personal interventions and coaching

You have access to the Personal Health Team who specialize in your condition, to help you:

- › Recognize worsening symptoms and when to see your provider.
- › Establish questions to ask your provider.
- › Understand the importance of following your provider's orders.
- › Develop health habits related to nutrition, sleep, exercise, weight, tobacco and stress.
- › Make educated decisions about treatment options.

Throughout the program, you follow your provider's direction and treatment plan.

You can take charge of your health using online tools. Self-service tools help you understand your condition, make more informed treatment decisions and work toward personal goals. Go to the home page tab for **My Health** and find multiple programs and resources on your customer personalized website.

Fast and accurate identification

To see if you are eligible for participation in the Chronic Condition Management Program, Cigna uses a broad range of information such as medical and pharmacy claims, and health assessment results. We perform this review regularly in case your health status changes. If you are identified with a chronic condition, you will receive information from us on benefits of the program, and you may be invited to use a personalized online program or to connect with a coach one-to-one. Of course, you can always choose not to accept our assistance. You may also call us to self-enroll or your provider may refer you to the program.

To ensure you have the confidential support you need, **you have toll-free access to clinical coaches** Monday through Friday (available at least 12 hours a day) to speak with you one-to-one, or you can log in to your personalized customer website for additional information and resources. Please note that hours of operation may vary based on your individual program.

In the event you need **assistance after hours**, our 24-hour HIL is a support program in which nurses can empower you to better manage your health. You can get this support 24 hours a day, seven days a week.

For emergency care, immediately dial 911.

For a nonemergency, call the toll-free customer service number listed on your ID card. For additional or self-service resources, go to your personalized customer website.

How Your Health Care Provider Gets Paid

The Cigna network of health care providers includes physicians/practitioners, hospitals and ancillary service providers

(ambulatory surgical centers, physical therapy or urgent care centers, etc.). Cigna **compensates** its network of health care providers in ways that are intended to motivate them to practice **preventive care, promote quality care, provide medically necessary care, and ensure the appropriate and cost-effective use of covered medical services and supplies.**

Compensation may also include additional payments to health care providers based on their performance in these same areas. In addition, Cigna may promote the use of certain health care providers in our network based on their superior quality of care and cost-effective measures.

Cigna does not offer incentives to encourage practitioners and other providers to limit the use of health care services, nor do we reward our medical directors for issuing denials of coverage for care. Cigna considers the provider's quality of care, quality of service and appropriate use of medical services before awarding any bonuses and incentives.

Cigna reinforces this philosophy through decisions made by our medical directors and Health Services staff, which encourages and promotes the appropriate use of covered health care services.

The methods by which health care providers in our network agree to be compensated are described in general below, and vary based

on the provider type (physician/practitioner, hospital or ancillary service provider). The amount and type of compensation may also vary based on the type of coverage plan (HMO, PPO, etc.).

› **Discounted fee-for-service:**

This payment method applies to all health care provider types: Physicians/practitioners; hospitals; ancillary service providers (ambulatory surgical centers, physical therapy or urgent care centers, etc.).

Payment for services is based on a discounted fee schedule as compared with the usual amount billed for health care services.

› **Capitation:** This payment method generally applies to physicians or various types of practitioner groups.

The physician or practitioner group is paid a fixed amount (capitation) at regular intervals for each Cigna customer who selects them as his or her primary care provider. These fixed payments generally cover all services provided by that provider, with no additional payments being made. Capitation offers predictable income, encourages health care practitioners to keep people well through preventive care and eliminates the financial incentive to provide services that will not benefit the patient.

Health care providers paid on a capitation basis may also participate in a risk-sharing arrangement with Cigna; that is, they agree on a target amount for the cost of certain services

and may receive a bonus or penalty if actual costs are under or over the target. All capitated services are monitored using criteria that may include patient access to care, quality of care, satisfaction, and appropriate and cost-effective use of medical services and supplies.

Cigna also works with separate, third-party administrative entities to administer payments to health care providers in our networks. Under these arrangements, Cigna may pay the third party a fixed monthly amount per customer for these services and health care providers are then compensated by the third party for services from that fixed amount.

› **Salary:** This payment method applies to "employed" health care providers of all types.

In some very limited areas, Cigna-owned medical groups or affiliates employ providers who are paid a salary for their services. These health care providers may be eligible for year-end bonuses, based on performance in areas such as quality of care, quality of service, and appropriate and cost-effective use of medical services and supplies.

› **Per diem:** This payment method applies to hospitals and similar facilities.

A specific amount is paid to the hospital each day ("per diem") for all health care received on that day. The per diem payment varies based on a number of factors, which

may include type of service or length of stay, and the resulting payment, in some cases, could be greater than the hospital's actual billed charges.

- **Case rate:** This payment applies to hospitals and certain ancillary services (e.g., ambulatory surgical centers).

A specific amount is paid for all health care received based on a given period of time (length of stay), or based on the procedure/service provided (e.g., an appendectomy or a maternity delivery).

- **Bonuses and incentives:** This method can apply to all health care provider types: Physicians/practitioners; hospitals; ancillary services (ambulatory surgical centers, physical therapy or urgent care centers, etc.).

Some providers may receive additional payments based on their performance in areas such as practicing preventive care, promoting quality care, providing medically necessary care, and ensuring the appropriate and cost-effective use of covered medical services and supplies. They may also receive financial and/or nonfinancial incentives to promote their use of referrals to other high-quality, cost-effective providers in our network (such as certain hospitals, labs, specialists and vendors).

This is a general overview of the most common forms of compensation to our health care providers; it is not meant to be all-inclusive. As health care evolves, compensation methods may be modified to

drive further improvement in quality, affordability and patient satisfaction.

If you have questions about which compensation method applies to services you receive from a practitioner, hospital or ancillary health care provider, please discuss this with the health care provider or their staff, as Cigna cannot discuss specific health care provider contract details. However, if you have questions about your coverage, including your copays and/or coinsurance obligations, please contact Cigna customer service at the toll-free number listed on your ID card.

Utilization Management – How Cigna Makes Coverage Decisions

Utilization Management includes the evaluation of potential coverage of health care services based on the terms of your benefit plan, medical appropriateness of health care services, procedures and the places where care is received, according to established evidence-based criteria and/or standard guidelines.

Cigna requires precertification (prior approval) for a limited number of health care services, drugs or procedures before the services are delivered. Services that require a health care provider to obtain precertification of coverage include:

- Nonemergency hospital and other facility admissions.
- Services for which coverage is limited or may be excluded by the health plan. This is done to ensure you know your potential out-of-pocket costs (costs that your plan doesn't cover, and that you're responsible for) in advance.

- A limited number of outpatient services and drugs.

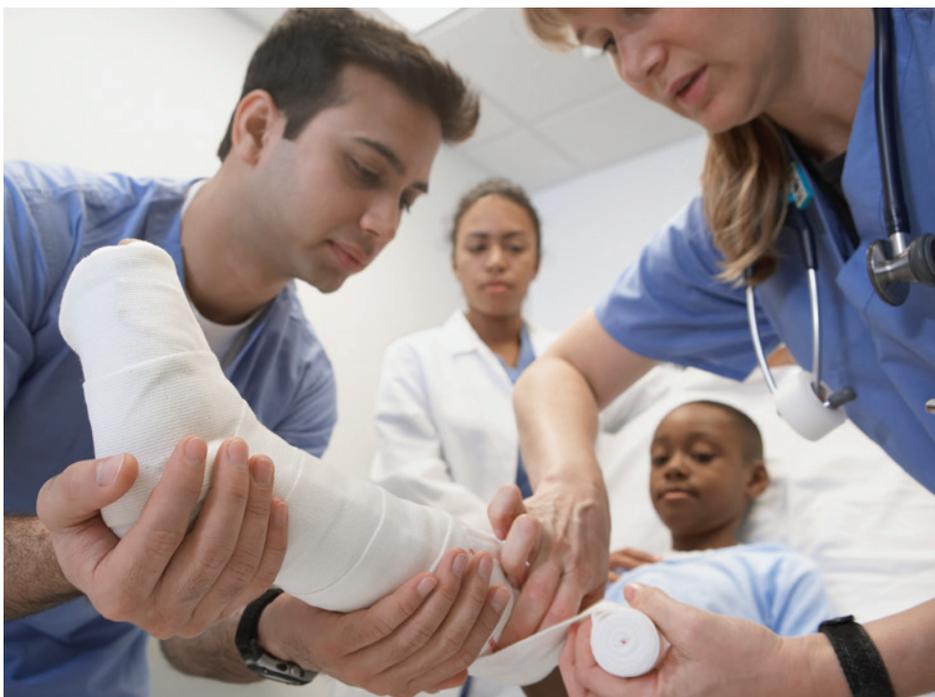

The services that require precertification vary, based on your benefit plan. Check your coverage materials, ask your provider or call Cigna customer service for information about your plan's particular precertification requirements.

Your health care provider can request precertification of coverage by telephone, fax, online submission or email. When we receive the request, we may ask for additional information about your condition and the treatment planned to determine if the services are covered by your health plan, or to identify coverage that your treatment provider may not be aware of. Check with your treatment provider before receiving services to see if precertification is required and if it is in place.

When making a coverage decision, Cigna's medical or behavioral providers will consider not only evidence-based guidelines, but also your unique clinical circumstances and the terms of your health plan. In the process, they will use Cigna's publicly posted medical, behavioral and pharmacy coverage policies, as well as additional resources, such as independent utilization management guidelines.

Some services may not be covered by your health plan, according to your specific medical benefit plan requirements and exclusions. If you obtain non-covered services, you may be billed directly for the full cost. Check your coverage materials for more information.

Utilization Management decisions are based on the existence of an available benefit, and then, if the benefit is available, on the medical necessity for that service. Cigna uses a medical physician, or a behavioral health care practitioner or pharmacist as appropriate, to review any health care denial involving medical judgment. Cigna does not reward health care providers or other individuals involved in coverage determinations for denials. In addition, there are no financial incentives for utilization management decision makers to make decisions that result in coverage for inappropriate care or underutilization.

If you have questions, call customer service at the toll-free number on your ID card.

Cigna Customers' Rights and Responsibilities Statement

Rights

You have the right to:

- › **Receive coverage for the benefits and treatments** available under your health benefit plan when you need it, and in a way that respects your privacy and dignity.
 - › **Receive the understandable information you need** about your health benefit plan, including information about services that are covered and not covered, and any costs that you will be responsible for paying.
 - › **Obtain understandable information** about Cigna's programs and services, including the qualifications of staff that support Cigna wellness and similar programs and any contractual relationships related to such programs.
 - › **Have access to current information** on in-network doctors, health care professionals, hospitals and places you can receive care, and information about a particular health care professional's education, training and practice.
 - › **Select a primary care provider** for yourself and each covered member of your family, and change your primary care provider for any reason. However, many benefit plans do not require that you select a primary care provider.
 - › **Have your personal identifiable data and medical information kept confidential** by Cigna and your health care professional, know who has access to your information, and know the procedures used to ensure security, privacy and confidentiality. Cigna honors
-
- the confidentiality of its customers' information and adheres to all federal and state regulations regarding confidentiality and the release of personal health information.
 - › **Participate** with your health care professional in health decisions, and have your health care professional give you information about your medical condition and your treatment options, regardless of coverage or cost. You have the right to receive this information in terms and language you understand.
 - › **Learn** about any care you receive. You should be asked for your consent for all care, unless there is an emergency and your life and health are in serious danger.
 - › **Refuse medical or behavioral care.** If you refuse care, your health care professional should tell you what might happen. We urge you to discuss your concerns about care with your doctor or other health care professional. Your doctor or health care professional will give you advice, but you will have the final decision.
 - › **Be advised** of who is available to assist you with any special Cigna programs or services you may receive, and who can assist you with any requests to change or disenroll from programs or services offered by or through Cigna.
 - › **Be heard.** Our complaint-handling process is designed to hear and act on your complaint or concern about Cigna and/or the quality of care you receive from health care professionals and the various places you receive care in our network; provide a courteous, prompt response; and guide you through our grievance process if you do not agree with our decision. Cigna strives to resolve your complaint on initial contact and in a manner that is consistent with your applicable benefit plan. Language interpretation and TTY services are available for complaint and appeal processes.
 - › **Know and make recommendations** regarding our policies that affect your rights and responsibilities. If you have recommendations or concerns, please call customer service at the toll-free number on your ID card.

Responsibilities

You have the responsibility to:

- › **Review and understand** the information you receive about your health benefit plan. Please call customer service when you have questions or concerns.
- › **Understand** how to obtain services and supplies that are covered under your plan – including any emergency services needed outside of normal business hours or when you are away from your usual place of residence or work, by using the indicated number on your Cigna ID card or by accessing Cigna online resources.
- › **Show** your ID card before you receive care.
- › **Schedule** a new patient appointment with any in-network health care

professional; build a comfortable relationship with your health care professional; ask questions about things you don't understand; and follow your health care professional's advice.

You should understand that your condition may not improve and may even get worse if you don't follow your health care professional's advice.

- › **Understand** your health condition and work with your health care professional to develop treatment goals that you both agree on, and to follow the treatment plan and instructions.
- › **Provide** honest, complete information to the health care professionals caring for you.
- › **Know** what medicine you take, why and how to take it.

- › **Pay** all copays, deductibles and coinsurance for which you are responsible, at the time service is rendered or when they are due.
- › **Keep** scheduled appointments, or notify the health care professional's office ahead of time if you are going to be late or miss an appointment.
- › **Pay** all charges for missed appointments and for services that are not covered by your plan.
- › **Voice** your opinions, concerns or complaints to Cigna customer service and/or your health care professional.
- › **Notify** your plan administrator and treating health care professional as soon as possible about any changes in family size, address, phone number or status with your health benefit plan, or if you decide to disenroll from Cigna's programs and services.

Know How to Voice Your Concerns or Complaints

Cigna wants you to be satisfied with your health benefit plan and the many services and programs we provide to you. That's why we have a process* to address your concerns and complaints.

- › You can submit your complaint by letter, fax or telephone at the toll-free numbers provided on your ID card.
- › Your complaint will be acknowledged and handled on initial contact or investigated in accordance with the type of issue reported.
- › In most situations involving quality of care concerns, we will be unable to disclose the final resolution because of confidentiality issues.

Customer service can help with complaints or appeals

If you have questions or concerns about coverage or claim payments, call customer service at the toll-free number on your ID card. If customer service cannot resolve your concern, ask for more information about how to have your concerns addressed.

Following are some steps you can take to help ensure you receive maximum coverage under your plan and possibly avoid the need to appeal.

1. **Confirm** that your doctors or other health care providers, hospitals, equipment suppliers, etc. are in-network by visiting your personalized website or calling customer service (check your ID card for the website address and the toll-free number to call). If your plan covers out-of-network services, know that your costs will likely be higher than if you choose in-network services.
2. **Read the exclusions and limitations** in your plan materials to confirm services are covered before receiving treatment.
3. **Review the Schedule of Coverage** in your plan materials for details on copays, coinsurance, deductibles, etc.

How to request an appeal of a coverage decision

The specific appeal process that applies to you is determined by the health plan you or your employer have chosen, and follows state and/or federal rules that apply to that type of plan. To better understand the appeal process available to you, refer to your coverage materials or call customer service.

To begin the appeal process, send your request to the address shown in the notice of adverse determination, coverage materials or provided by customer service. Indicate why you believe the decision should be reviewed again and include any supporting documentation.

Your request will be reviewed by someone who was not involved in the initial decision and who can take corrective action according to the terms of your plan. A psychiatrist reviews behavioral appeals, and a medical director reviews medical and pharmacy appeals. If your situation requires urgent care, the review and response will be expedited.

You will be notified in writing of the appeal decision. If you are not satisfied with the appeal decision, depending on the type of plan that you or your employer have chosen and the state and/or federal rules that apply to that type of health plan, you may have the right to request another internal appeal review. The appeal reviewer will not have been involved in any prior decision related to your appeal nor be a subordinate of a previous decision maker.

An independent external review may be available

You will be notified in writing of the final internal appeal decision. If you are not satisfied with the decision, additional options may be available to you, depending on the type of plan that you or your employer have chosen and the state and/or federal rules that apply to that type of health plan. If the appeal involves a coverage decision concerning medical judgment, you may be able to request an external review by an independent review organization after your final internal appeal. If external review is available to you, your final appeal decision letter will include instructions on how to request this review.

* If you are covered under an insurance policy or by an HMO, we address your concerns, complaints and appeals according to applicable state and federal rules. Those rules may vary from our national process described here. Please check your coverage materials for more information.

Cigna is committed to maintaining the confidentiality of your protected health information (PHI). We have established policies and safeguards to protect oral, written and electronic information about you across our organization. When you enrolled, you should have received a Notice of Privacy Practices ("Notice") from Cigna or your employer, depending on your health plan.

Your Notice may be provided by your employer. If it is, you can ask your employer for a copy.

If Cigna provided the Notice, you will find a copy on your personalized website by clicking on the Privacy link at the bottom of the home page. The Notice describes how we use and disclose PHI and advises individuals of their rights – such as how to receive your health information at a location that you specify, how to give someone authorization to access your PHI, or how to name a personal representative to handle your medical affairs – under federal and state law.

The Notice is available in English, Spanish and Traditional Chinese. If you prefer, you can get a copy of our Notice, or you can ask to receive the information in other languages, by calling customer service at the toll-free number on your ID card.

How We Assess Medical Technology

Cigna has a specific process to review new and emerging medical products, procedures, devices, therapies, pharmaceuticals, biologicals and behavioral health procedures. The Cigna Medical Technology Assessment Committee is made up of physicians of different types, including multiple medical, surgical and behavioral health specialties. It reviews literature, policies, technology assessments and evidence-based medicine summaries from external experts in the field to ensure that new products and procedures recommended for coverage are proven to be safe and effective for our customers. Cigna also consults with its internal professional subject matter experts as part of the committee review process. Generally, the committee will not consider a new technology for coverage until U.S. Food and Drug Administration (FDA) regulatory approval is obtained.

In making its recommendations, the Cigna Medical Technology Assessment Committee looks to authoritative sources, including published peer-reviewed medical articles and clinical studies, approval from governmental bodies such as the U.S. FDA, medical professional specialty society positions and independent reviews from experts in the field.

After a new technology receives final approval from the appropriate governmental regulatory body (if needed), the committee reviews the technology by looking at a number of questions, including:

- › Is the technology safe and effective?
- › Are the studies, if any, well conducted with sound study methodology?
- › Are health outcomes positive and/or do they have a beneficial effect?
- › Do positive outcomes outweigh any harmful effects?
- › Is the technology available outside of the investigational/research setting?

The coverage of a product or procedure also depends on the terms of your health plan.

Prescription Drug Coverage

*This information is for customers who have prescription drug coverage through Cigna. To find out if you have prescription drug coverage through Cigna, please check your plan materials.**

The Cigna Prescription Drug List is an extensive list of generic and brand-name medications that are covered under your prescription drug plan. The list is split into three categories, or tiers: Generics, preferred brands and non-preferred brands.

- **1st Tier, Typically Generic Medications:** Generics have similar strength and active ingredients as their brand-name counterparts. You will usually pay less for generic medications.
- **2nd Tier, Preferred Brand Medications:** These medications will usually cost more than a generic, but may cost less than a non-preferred brand.
- **3rd Tier, Typically Non-Preferred Brand Medications:** Non-preferred brands generally have generic alternatives and/or one or more preferred brand options to treat the same condition. You will usually pay more for non-preferred brand medications.

How can I see if a drug is covered on the prescription drug list?

You can search for medications on the prescription drug list by name or drug class. You can view the drug list using your personalized website on [myCigna.com](https://mycigna.com), or you can call the toll-free number on the back of your ID card. You can also use the tool on the [myCigna App](#) or on [myCigna.com](https://mycigna.com) to price a medication, compare prices at local retail pharmacies and Cigna Home Delivery PharmacySM, and view medication alternatives.

Who decides which medications are on the list?

The Cigna Prescription Drug List is developed with the help of Cigna's Pharmacy and Therapeutics (P&T) Committee, which is a group of practicing doctors and pharmacists, most of whom work outside of Cigna. The group meets regularly to review medical evidence and information provided by federal agencies, drug manufacturers, medical professional associations, national organizations and peer-reviewed journals about the safety and effectiveness of medications that are newly approved by the FDA and medications already on the market. The Cigna Pharmacy Management[®] Business Decision Team then looks at the results of the P&T Committee's clinical review, as well as the medication's overall value and other factors before adding it to, or removing it from, the drug list.

Does my provider know what medications are on the prescription drug list?

Yes. Providers have several resources available to them to determine which drugs are on our prescription drug lists.

What if I need a medication that is not on the prescription drug list?

If your provider wants you to take a medication that's not on the prescription drug list, you or your provider can call Cigna to request approval for coverage as an exception. If you don't get approval and you continue to fill the prescription, you will need to pay the full cost of the medication out-of-pocket directly to the pharmacy.

Am I covered for all the medications on the list?

Certain medications need prior authorization (approval) from Cigna before they are covered. In this case, you or your provider will need to request Prior Authorization approval for coverage. Once requested, we'll let you and your provider know if your medication is approved.

* Cigna offers several options for prescription drug coverage. Costs vary by plan, and some medications require prior authorization. Please check your plan materials for more information, including any benefits that are required by state law.

Preventive Health Coverage

Your Cigna plan covers designated preventive care services to help keep you well, not just services needed to treat an illness or injury. Your plan includes coverage for wellness services for women, men and children.

During a wellness exam, you and your health care provider will determine what tests and health screenings are right for you, based on your age, gender, personal health history and current health. Cigna's preventive care coverage complies with the Affordable Care Act (ACA). Services designated as preventive care include periodic well visits, routine immunizations and certain designated medical or behavioral screenings for symptom-free or disease-free individuals. They also include designated services for individuals at increased risk for a particular disease. Cigna provides a reference guide for services considered preventive care under your plan. For more information regarding preventive services, visit myCigna.com and select "Review My Coverage" then select "Medical Coverage." The Preventive Care Reference Guide is posted on this page under Preventive Care. Just click on the title. You may also call the toll-free number on your ID card to request a copy.

Behavioral Case Management and Screenings

Cigna has Behavioral Case Management programs to help you make the most of your treatment and prescribed medicines. We can provide information and ideas to help you better understand your treatment and medicines. A case manager can help you create a personal plan for you or your family. Included in several programs are behavioral screenings to assess depression, alcohol use and substance use. For more information regarding Behavioral Case Management, visit myCigna.com and select "Review My Coverage" then select "Mental Health." The Behavioral Case Management/Screenings overview is posted on this page under "Related Links." Just click on the title. You may also call the toll-free number on your ID card to request a copy.

Health Assessment – 15 Minutes Can Change Your Health

Your health is your most important asset. Now there's a tool accessible from your personalized website that can help you take care of it. Use your health assessment as a quick, confidential survey that examines your health status so you can get answers to pressing health questions. Want to know which preventive screenings to consider? Need to lower your cholesterol?

Interested in losing weight? Here's how your individual survey results can help.

- ▶ When you answer questions about your lifestyle, habits, health history, weight, cholesterol, blood pressure, etc., you will get customized feedback that explains your risks for certain health conditions, and how to maintain or improve your health.
- ▶ Based on your answers, you may be able to participate in an online health coaching program that shows you how to make lifestyle changes over the course of a few weeks, or you may be referred to other online tools to help you manage health concerns.
- ▶ You can review your health benefit plan to see if you are eligible for personalized health coaching to help you manage any health risks.
- ▶ You can discuss your risks with your health care provider and develop steps for lowering your risk factors.
